2. OVERVIEW

2. OVERVIEW

The following comments and analysis should be read in conjunction with this document as a whole and in particular with the audited consolidated financial statements including the statement of financial position, the statement of comprehensive income, the statement of cash flows, the statement of changes in equity and the notes thereto for the years ended December 31, 2022, 2023 and 2024.

2.1 Scope of consolidation

As at December 31, 2024, Maroc Telecom consolidated the following companies in its financial statements:

Mauritel

Maroc Telecom acquired on April 12, 2001, 51.5% of the voting rights of Mauritel, the incumbent operator in Mauritania and operator of a Fixed-line and Mobile telecommunications network, subsequent to the merger of Mauritel SA (Fixed line) and Mauritel Mobile. Mauritel S.A. is owned by the holding company Compagnie Mauritanienne de Communications (CMC), in which Maroc Telecom holds an 80% equity stake and consequently a 41.2% interest in Mauritel. Mauritel has been fully consolidated by Maroc Telecom since July 1, 2004.

Onatel

On December 29, 2006, Maroc Telecom acquired a 51% stake in the Burkinabe operator Onatel. The Group increases its stake in Onatel, its stake is 61% as of April 17, 2018. The subsidiary has been fully consolidated in Maroc Telecom's financial statements since January 1, 2007.

Gabon Telecom

On February 9, 2007, Maroc Telecom acquired 51% of the capital of Gabon Telecom. Gabon Telecom has been fully consolidated by Maroc Telecom since March 1, 2007.

Gabon Telecom bought out Maroc Telecom to acquire 100% of the subsidiary Atlantique Telecom Gabon, which was absorbed by Gabon Telecom on June 29, 2016.

Sotelma

On July 31, 2009, Maroc Telecom acquired a 51% stake in Mali’s incumbent operator, Sotelma. Sotelma has been fully consolidated by Maroc Telecom since August 1, 2009.

Casanet

Casanet is a Moroccan provider of Internet access created in 1995. In 2008, the company became a 100% subsidiary of Maroc Telecom and expands its activities by specializing in information engineering. Casanet has been fully consolidated by Maroc Telecom since January 1, 2011.

Moov Africa Côte d'Ivoire

On January 26, 2015, Maroc Telecom acquired an 85% stake in the capital of the Côte d’ivoire Mobile operator. Moov Africa Côte d’Ivoire has been fully consolidated in the financial statements of Maroc Telecom since January 31, 2015.

Moov Africa Benin

On January 26, 2015, Maroc Telecom acquired 100% of the capital of the Benin Mobile operator. Moov Africa Benin has been fully consolidated in the financial statements of Maroc Telecom since January 31, 2015.

Moov Africa Togo

On January 26, 2015, Maroc Telecom acquired a 95% stake in the capital of the Togo Mobile operator. Moov Africa Togo has been fully consolidated in the financial statements of Maroc Telecom since January 31, 2015.

Moov Africa Niger

On January 26, 2015, Maroc Telecom acquired 100% of the capital of the Niger Mobile operator. Moov Africa Niger has been fully consolidated in the financial statements of Maroc Telecom since January 31, 2015.

Moov Africa Centrafrique

On January 26, 2015, Maroc Telecom acquired 100% of the capital of the Central African Republic Mobile operator. Moov Africa Centrafrique has been fully consolidated in the financial statements of Maroc Telecom since January 31, 2015.

Moov Africa Chad

On June 26, 2019, Maroc Telecom acquired 100% of the capital of the Chadian operator Millicom Tchad. Moov Africa Chad has been fully consolidated by Maroc Telecom since July 1, 2019.

Moov Africa brand

The new visual identity "Moov Africa" is launched on January 1, 2021. The ten subsidiaries of Maroc Telecom Group (present in Mauritania, Burkina Faso, Gabon, Mali, Ivory Coast, Benin, Togo, Niger, Central African Republic and Chad) are now united around a common identity.

Other non-consolidated investments

Investments which are not material to the consolidated financial statements or over which Maroc Telecom does not directly or indirectly exercise exclusive control, joint control or significant influence are not consolidated and are recorded under "Non-current financial assets".

This is the case for MAROC TELECOM Cash, MAROC TELECOM Fly, Moov Money and the minority interests held in RASCOM, Autoroutes du Maroc, Arabsat and other investments.

** The adjustments to the financial indicators are detailed in Appendix 1.*

2.2.1 Comparison of financial data for fiscal years 2024 and 2023

2.2.1.1 Group consolidated results

Customer base

At the end of 2024, the Maroc Telecom Group's customer base stands at **79.3** million customers, up **4.5%** year-on-year, primarily driven by Moov Africa subsidiaries' customers base (**+8.1%**).

Revenues

The Maroc Telecom Group generated revenues[4] of MAD **36.7** billion in 2024, up **1.2%**[1]. This performance was driven by revenue growth from the Fixed-Line business in Morocco (**+2.3%**), boosted by increased Data usage and customer bases, combined with the one of Moov Africa subsidiaries (**+4.6%**[1]).

Earnings from operations before depreciation and amortization

At the end of 2024, the Maroc Telecom Group's consolidated adjusted earnings from operations before depreciation and amortization (EBITDA) amounted to MAD **19,197** million, up **0.3%**[1] over the year thanks to growth in adjusted EBITDA of the Moov Africa subsidiaries (**+2.9%**[1]).

The adjusted EBITDA margin remained high at **52.3%**, thanks to the Group's ongoing efforts to control operating costs, as well as the favorable impact of lower Mobile termination rates in the subsidiaries.

Earnings from operations

The Group's consolidated adjusted earnings from operations (EBITA)(5) for the full-year 2024 amounted to MAD **12,182** million, up **0.7%**(1) vs. the same period in 2023, driven by the increase in EBITDA. The adjusted EBITA margin represented **33.2%** of revenues, virtually unchanged over the year.

Net income Group share

The adjusted net income Group share reached **6,132** million dirhams as of December 2024, nearly stable compared to the previous year.

Investments

CAPEX(2) excluding frequencies and licenses represented **20.8%** of revenues, in line with the target announced for the year.

Cash flow

Adjusted net cash flows from operations (CFFO)(6) increased by **8.4%(1)** in 2024 versus 2023, reaching MAD **10,941** million. At December 31, 2024, consolidated net debt(7) represented **1.1** times(3) Group full-year EBITDA.

Dividend

At the next General Meeting of Shareholders, the Maroc Telecom Supervisory Board will propose payment of a dividend of MAD **1,43** per share, representing a total payout of MAD **1,26** billion.

Maroc Telecom Group's outlook for 2025

Based on recent market developments and provided no new major exceptional event disrupts the Group's activity, Maroc Telecom forecasts the following outlook for 2025 at constant scope and exchange rates:

- **Slight revenue growth;**
- **High EBITDA level maintained;**
- **CAPEX of approximately 20% of revenues, excluding frequencies and licenses**.

2.2.1.2 Activities in Morocco

The adjustments to the "Morocco" and "International" financial indicators are detailed in Appendix 1.

(IFRS in MAD millions)	Q4 2023	Q4 2024	Change	2023	2024	Change

Net debt/EBITDA(3)	0.6x	**1.1x**		0.6x	**1.1x**	

* *Fixed Data includes the Internet, TV on ADSL and Data services to companies.*

At the end of December 2024, activities in Morocco generated revenues of MAD 19,143 million, a decrease of 2.0% compared to 2023, due to a decline in Mobile activities (-5.5%), partially offset by the strong performance of Fixed Data (+9.2%).

Adjusted earnings from operations before depreciation and amortization (EBITDA) amounted to MAD 11,091 million in 2024, down 1.6% versus 2023. The adjusted EBITDA margin remains at a high level of 57.9% (+0.3 pt).

Adjusted earnings from operations (EBITA)(5) amounted to MAD 7,785 million, virtually unchanged year-on-year (-0.4%), and represented 40.7% of revenues (+0.7 pt).

In 2024, adjusted net cash flows from operations (CFFO)(6) rose 14.1% to MAD 7,309 million.

Mobile

	Unit	12/31/2023	12/31/2024	Change
Customer base[8]	**(000)**	19,767	**19,148**	**-3.1%**
Prepaid	(000)	17,269	16,525	-4.3%
Postpaid	(000)	2,499	2,623	5.0%
Of which Internet 3G/4G+[9]	**(000)**	11,025	**10,963**	**-0.6%**
ARPU[10]	**(MAD/month)**	45.4	**43.3**	**-4.7%**

At the end of 2024, the Mobile customer base[8] totaled 19.1 million customers, with a 5.0% increase in the postpaid customer base.

Mobile revenues decreased by 5.5% versus 2023 to MAD 10,992 million.

Blended ARPU[10] was MAD 43.3 in 2024, down 4.7% year-on-year.

Fixed-line and Internet

	Unit	12/31/2023	12/31/2024	Change
Fixed-Line	**(000)**	1,781	**1,650**	**-7.4%**
Broadband access[11]	**(000)**	1,563	**1,450**	**-7.3%**

The Fixed-Line customer base stood at nearly 1.7 million lines at the end of 2024, down 7.4%.

The Broadband[11] customer base represented almost 1.5 million subscribers, with a substantial increase in the FTTH customer base (+29%).

Growth in the Fixed-Line & Internet businesses continued, generating revenues of MAD 9,915 million, up 2.3% versus 2023, mainly driven by growth in Fixed Data revenues (+9.2%).

2.2.1.3 International activities

Financial indicators

(IFRS in MAD millions)	Q4 2023	Q4 2024	Change	Change at constant exchange rates[1]	2023	2024	Change	Change at constant exchange rates[1]

Net debt/EBITDA[3]	1.0x	**1.2x**			1.0x	**1.3x**		

Moov Africa subsidiaries' activities generated revenues of MAD 18,706 million for the 2024 financial year, up 4.6%[1]. This is due in particular to growth in Mobile Data (+15.6%[1]), Fixed Internet (+21.1%[1]) and Mobile Money (+14.4%[1]). Excluding the reduction in call termination rates, subsidiaries' revenues rose 5.2%[1].

In 2024, adjusted earnings before depreciation and amortization (EBITDA) amounted to MAD 8,106 million, an increase of 2.9%[1], driven by higher revenues. The adjusted EBITDA margin was 43.3%, slightly down year-on-year.

Adjusted earnings from operations (EBITA)[5] amounted to MAD 4,397 million, up 2.7%[1].

Adjusted net cash flows from operations (CFFO)[6] fell 1.3%[1] to MAD 3,632 million.

Notes :

(1) Constant MAD/ouguiya/CFA franc exchange rate.
(2) Capital expenditure corresponds to acquisitions of property, plant and equipment and intangible assets recognized during the period.
(3) The net debt/EBITDA ratio excludes the impact of IFRS 16 and takes into account the annualization of EBITDA.
(4) Maroc Telecom consolidates in its financial statements Casanet and the Moov Africa subsidiaries in Mauritania, Burkina Faso, Gabon, Mali, Côte d'Ivoire, Benin, Togo, Niger, Central African Republic and Chad.
(5) EBITA corresponds to operating profit before amortization of intangible assets related to business combinations, impairment of goodwill and other intangible assets related to business combinations and other income and expenses related to financial investment transactions and transactions with shareholders (except when they are recognized directly in equity).
(6) CFFO comprises the net cash flows from operating activities before taxes as presented in the cash flow statement, as well as dividends received from associates and non-consolidated equity interests. It also includes net capital expenditure, which corresponds to net cash outflows on acquisitions and disposals of property, plant and equipment and intangible assets.
(7) Borrowings and other current and non-current liabilities less cash (and cash equivalents) including cash blocked for bank loans.
(8) The active customer base consists of prepaid customers who have made or received a voice call (excluding calls from the public telecommunication network operator concerned or its Customer Relations Centers) or sent an SMS/MMS or who have used the Data services (excluding exchanges of technical data with the public telecommunication network operator concerned) in the past three months, and non-terminated postpaid customers.
(9) The active customer base of the 3G and 4G+ Mobile Internet includes holders of a postpaid subscription contract (whether or not coupled with a voice offer) and holders of a prepaid subscription to the Internet service who have carried out at least one recharge during the past three months or whose credit is valid and who have used the service during this period.
(10) ARPU (average revenues per user) is defined as revenues generated by incoming and outgoing calls and Data services net of promotions, excluding roaming and equipment sales, divided by the average number of users in the period. This is the blended ARPU of the prepaid and postpaid segments.
(11) The broadband customer base includes ADSL, FTTH, leased connections and CDMA in Mali.

Appendix 1: Relationship between adjusted financial indicators and published financial indicators

Adjusted EBITDA, adjusted EBITA, Group share of adjusted net income and adjusted CFFO are not strictly accounting measures, and should be considered as additional information. They are a better indicator of the Group's performance as they exclude non-recurring items.

2.2.2 Comparaison of financial data for fiscal years 2022 and 2023

2.2.2.1 Group Consolidated results

Customer base

The Group customer base swelled to nearly 76 million customers in 2023, up 0.7% year-on-year, driven by the expansion of the customer base in Morocco (+1.0%) and among the subsidiaries (+0.6%).

Revenues

The Maroc Telecom Group generated revenues of MAD 36.8 billion in 2023, up 3.0% (+1.4% at constant exchange rates). Growth in the Moov Africa subsidiaries' revenues and in the Fixed Internet business in Morocco continued to drive Group revenues, offsetting the decline in the Mobile business in Morocco.

Earnings from operations before depreciation and amortization

For the 2023 financial year, the Maroc Telecom Group posted adjusted earnings from operations before depreciation and amortization (EBITDA) of MAD 19,369 million, up by 4.7% (+3.5% at constant exchange rates). The adjusted EBITDA margin improved by 0.9 pt (+1.0 pt at constant exchange rates), thanks to revenue growth and tight cost control.

Earnings from operations

Adjusted earnings from operations (EBITA) for 2023 amounted to MAD 12,226 million, up 6.6% (+5.5% at constant exchange rates) driven mainly by EBITDA growth.
The adjusted EBITA margin came to 33.2%, up 1.1 pt (+1.3 pt at constant exchange rates).

Group share of net income

Adjusted net income Group share was up 6.4% (+5.7% at constant exchange rates and totaled MAD 6,195 million for the year ended December 31, 2023.

Investments

CAPEX excluding frequencies and licenses represented 21.3% of 2023 revenues, in line with Group targets.

Cash-Flow

Adjusted net cash flows from operations (CFFO) fell by 10.6% at constant exchange rates to MAD 10,213 million.
At December 31, 2023, consolidated net debt represented 0.8 times Group full-year EBITDA.

2.2.2.2 Activities in Morocco

(IFRS in MAD millions)	2022	2023
Revenues	19,546	19,543
Mobile	11,789	11,630
Services	*11,296*	*11,006*
Equipment	*493*	*624*
Fixed-line	9,564	9,688
Of which Fixed Data	4,007	4,296
Elimination and other income	-1,807	-1,775
Adjusted EBITDA	10,974	11,266
Margin (%)	*56.1%*	*57.7%*
Adjusted EBITA	7,446	7,819
Margin (%)	*38.1%*	*40.0%*
CAPEX	3,183	3,301
Of which frequencies and licences	*0*	*0*
CAPEX/revenues (excluding frequencies and licences)	*16.3%*	*16.9%*
Adjusted CFFO	7,798	6,404
Net debt	9,405	7,954
Net debt/EBITDA	0.8x	0.6x

Morocco posted flat revenues of MAD 19,543 million for the 2023 financial year. Fixed Data performance (+7.2%) offset the decline in Mobile revenues (-1.3%).

Adjusted earnings from operations before depreciation and amortization (EBITDA) in 2023 amounted to MAD 11,266 million, up 2.7% versus 2022. The adjusted EBITDA margin rose 1.5 pt to a high 57.7%.

Adjusted earnings from operations (EBITA) amounted to MAD 7,819 million, up 5.0%, thanks mainly to higher EBITDA. It represents an adjusted EBITA margin of 40.0%, up 1.9 pt.

Adjusted net cash flows from operations (CFFO) fell 17.9% to MAD 6,404 million.

Mobile

	Unit	2022	2023
Mobile			
Customer base	**(000)**	19,252	19,767
Prepaid	(000)	16,836	17,269
Postpaid	(000)	2,416	2,499
Of which Internet 3G/4G+	**(000)**	11,043	11,025
ARPU	**(MAD/month)**	46.8	46.0

At the end of 2023, the Mobile customer base totaled 19.8 million customers, up 2.7% year-on-year, boosted by the combined increase in postpaid (+3.4%) and prepaid (+2.6%) customers.

Mobile revenues decreased by 1.3% versus 2022 to MAD 11,630 million.

2023 blended ARPU was MAD 46.0, down 1.6% year-on-year.

Fixed-Line & Internet

	Unit	2022	2023
Fixed-lines	**(000)**	1,931	1,781
Broadband access	**(000)**	1,706	1,563

The Fixed-line customer base stood at nearly 1.8 million lines at the end of 2023, down 7.8%.

The Broadband customer base represents nearly 1.6 million subscribers, with a substantial increase in the FTTH customer base (+41%).

The growth in the Fixed-line & Internet businesses continued, generating revenues of MAD 9,688 million, up 1.3% versus 2022, mainly driven by growth in Fixed Data revenues (+7.2%).

2.2.2.3 International activities

Financial indicators

(IFRS in MAD millions)	2022	2023
Revenues	17,242	18,381
Of which Mobile services	*15,938*	*16,971*
Adjusted EBITDA	7,518	8,102
Margin (%)	*43.6%*	*44.1%*
Adjusted EBITA	4,022	4,408
Margin (%)	*23.3%*	*24.0%*
CAPEX	4,388	4,537
Of which frequencies and licences	*0*	*0*
CAPEX/revenues (excluding frequencies and licences)	*25.4%*	*24.7%*
Adjusted CFFO	3,495	3,808
Net debt	7,206	8,479
Net debt/EBITDA	0.9x	1.0x

The Group's international activities generated revenues of MAD 18,381 million for 2023, up 6.6% (+3.4% at constant exchange rates), driven by the combined effect of growth in Mobile Data (+22.6% at constant exchange rates), Fixed-line Internet (+11.3% at constant exchange rates) and Mobile Money (+5.0% at constant exchange rates). Excluding the reduction in call termination rates, subsidiaries' revenues rose by 3.8% at constant exchange rates(1).

In 2023, adjusted earnings before depreciation and amortization (EBITDA) totaled MAD 8,102 million, up 7.8% (+4.6% at constant exchange rates). EBITDA growth was driven by revenue growth, the improvement in the gross margin (+1.1 pt) and contained operating costs despite inflationary pressures. The adjusted EBITDA margin was 44.1%, up 0.5 pt.

Adjusted earnings from operations (EBITA) amounted to MAD 4,408 million, up 9.6% (+6.4% at constant exchange rates), driven by the increase in EBITDA.

Adjusted net cash flows from operations (CFFO) increased 9.0% (+5.8% at constant exchange rates) to MAD 3,808 million.

2.3 Transition from separate financial statements to consolidated financial statements

The consolidated financial statements are prepared from the individual financial statements of Maroc Telecom and its subsidiaries, which are drawn up in accordance with national accounting standards, on which a number of adjustments have been made to comply with consolidation rules and presentation formats in accordance with the international IFRS framework.

The main adjustments made when transitioning from individual financial statements to IFRS consolidated financial statements relate to:

- The inclusion of sales commissions in consolidated operating expenses. These costs are initially deducted from revenue in the individual financial statements;
- The capitalization of personnel expenses related to the deployment of fixed assets;
- The accounting of SIM cards as intangible assets;
- The reclassification of unsold and unactivated terminal stock in the context of revenue recognition upon activation;
- The elimination, in the balance sheet, of impaired fixed assets and the recognition in the income statement of the change for the period;
- The recognition in the income statement of the exchange adjustements;
- Recognition of the impact of unwinding the retirement benefits provision discounting in financial income;
- Capitalization of deferred taxes on temporary differences arising from the separate financial statements, IFRS adjustments and tax loss carryforwards;
- Reclassification under net operating income of noncurrent operating items, and under net financial income of noncurrent financial items;
- The identification of leases for the right of use and the capitalization of rental expenses that meet the duration and value criteria required by IFRS 16 in fixed assets. This restatement gives rise to the creation of a new financial liability and the corresponding interest charges and the recognition of depreciation of rental expenses converted into fixed assets;
- Reclassification under current assets of assets held for sale;
- Reclassification of the corporate income tax liability component of tax debts;
- Reclassification under current items, of loan, financial debt and provision components maturing in less than a year.
- The other consolidation adjustments basically concern all consolidation transactions (elimination of consolidated securities, intra-group transactions and internal capital gains or losses, etc.).

3. MAROC TELECOM CONSOLIDATED FINANCIAL STATEMENTS

3. CONSOLIDATED FINANCIAL STATEMENTS AT DECEMBER 31 2022, 2023, 2024

Pursuant to regulation (EC) no. 1606/2002 of the European Parliament of July 19, 2002, Maroc Telecom Group's consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IAS/IFRS), as endorsed by the European Union.

Position at December 31, 2024		**5,275**	**10,235**	**-602**	**14,908**	**3,794**	**18,702**

At December 31, 2024, Maroc Telecom's share capital comprised 879,095,340 ordinary shares. Ownership of the shares was divided as follows:

- Etisalat: 53%;
- Kingdom of Morocco: 22%;
- Other: 25%.

Reserves consist mainly of accumulated undistributed earnings from previous years, including MAD 3,073 million in undistributable reserves at December 31, 2024.

NOTE 1. ACCOUNTING PRINCIPLES AND VALUATION METHODS

Group companies are consolidated on the basis of their fiscal year ending December 31,2024 except for CMC, whose fiscal year ends March 31, 2024.

The financial statements and notes were approved by the Management Board on January 21, 2025.

1. CONTEXT FOR THE PREPARATION OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR 2024 AND THE FINANCIAL STATEMENTS FOR THE YEARS 2023 AND 2022

Pursuant to regulation (EC) no.1606/2002 of July 19, 2002, concerning the adoption of international accounting standards, the consolidated financial statements of Maroc Telecom Group for the year ended December 31, 2024, were prepared in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB), applicable as endorsed by the European Union (EU). For purposes of comparison, the 2024 financial statements also include financial information on 2023 and 2022.

2. COMPLIANCE WITH ACCOUNTING STANDARDS

The consolidated financial statements of Maroc Telecom SA have been prepared in accordance with International Financial Reporting Standards (IFRS) and International Financial Reporting Interpretations Committee (IFRIC) interpretations endorsed by the European Union and mandatory at December 31, 2024. The accounting standards applied to the consolidated financial statements do not differ from those issued by the International Accounting Standards Board (IASB).

2.1 Standards and interpretations applied by Maroc Telecom for fiscal year 2024

All the new standards, interpretations and amendments published by the IASB and mandatory in the European Union from January 1, 2024 have been applied.

2.1.1 Impact of application of the standards and interpretations adopted in 2024

The Group believes that the improvements adopted in 2024 did not have a material impact on its consolidated financial statements.

2.2 Standards and interpretations applied by Maroc Telecom for fiscal year 2025

The Maroc Telecom group has not anticipated any significant impacts from the implementation of standard amendments whose entry into force is scheduled for 2025.

3. PRESENTATION AND PRINCIPLES GOVERNING THE PREPARATION OF THE CONSOLIDATED FINANCIAL STATEMENT

Pursuant to IFRS principles, the consolidated financial statements have been prepared on an historical-cost basis, with the exception of certain asset and liability categories.

The categories concerned are mentioned in the notes below. The consolidated financial statements are presented in Dirham and all values are rounded to the nearest million unless otherwise noted. They include the accounts of Maroc Telecom and its subsidiaries after elimination of intra-group transactions.

3.1 Statement of comprehensive income

Maroc Telecom has chosen to present its statement of comprehensive income in a format that breaks down income and expenses by type.

3.1.1 Earnings from operations and earnings from continuing operations

Earnings from operations, which in documents previously issued by Maroc Telecom was called operating income, includes revenues, cost of purchases, payroll costs, taxes and duties, other operating income and expenses, as well as net depreciation, amortization and provisions.

Earnings from continuing operations includes earnings from operations, other income from continuing operations, other expenses on continuing operations (including impairment of goodwill and other intangible assets), as well as the share of net earnings of equity associates.

3.1.2 Financing costs and other financial income and expenses

Net financing costs comprise:

- Gross financing costs which includes interest payable on loans calculated using the effective-interest rate method;
- Financial income received from cash investments.

Other financial income and expenses mainly include gains and losses on currency translation (other than those relating to operating activities recognized under earnings from operations), dividends received from non-consolidated companies, earnings from consolidated activities or companies not recognized under earnings from discontinued activities or in the process of being discontinued.

3.2 Statement of financial position

Assets and liabilities with a maturity of less than the operating cycle, usually less than 12 months, are classified as current assets or current liabilities. If their maturity exceeds this period, they are classified as non-current assets or non-current liabilities, except for operating receivables and payables.

3.3 Consolidated statement of cash flows

The Maroc Telecom Group has chosen to present its consolidated cash flow statement using the indirect method. The working capital requirement related to the business corresponds to changes in the balance sheet items of operating receivables, inventories, and operating payables.

3.4 Use of estimates and assumptions

The preparation of consolidated financial statements in accordance with IFRS requires Maroc Telecom to make certain estimates and assumptions that it deems reasonable and realistic. Despite regular reviews of these estimates and assumptions based on past or anticipated achievements, facts and circumstances may lead to changes in these estimates and assumptions that could have an impact on the carrying value of Group assets, liabilities, equity, or earnings.

The main estimates and assumptions concern changes in the following items:

- provisions: risk estimates, performed on an individual basis; the occurrence of events during risk-measurement procedures may lead at any time to a reassessment of the risk in question (see Note 14);
- impairment of trade receivables and inventories: estimates of nonrecovery risk for trade receivables and obsolescence risk for inventories;
- employee benefits: assumptions, updated annually, include the probability of employees remaining with the Group until retirement, expected changes in future compensation, the discount rate, and the inflation rate (see Note 14);
- goodwill: valuation methods adopted for the identification of intangible assets acquired through business combinations (see Note 3);
- goodwill, indefinite useful lives of intangible assets, and assets in progress: assumptions are updated annually for impairment tests performed on each of the Group's cash-generating units (CGUs), determined by future cash flows and discount rates;
- deferred taxes: estimates concerning the recognition of deferred tax assets are updated annually; estimates include the Group's future tax results and expected changes in temporary differences between assets and liabilities (see Note 8).
- IFRS 16 : the discount rate is estimated by taking into account risk, economic conditions, country specificities and duration.

3.5 Consolidation methods

The generic name Maroc Telecom refers to the group of companies composed of the parent company Itissalat Al-Maghrib S.A. and its subsidiaries.

A list of the Group’s principal subsidiaries is presented in Note 2, “Scope of consolidation at December 31, 2022, 2023, and 2024.

Maroc Telecom’s scope of consolidation comprises wholly owned companies exclusively; therefore the only consolidation method employed by the Group is that of full consolidation.

The accounting method described below was applied consistently to all the periods presented in the consolidated financial statements.

Full consolidation

All companies in which Maroc Telecom has a controlling interest, namely those in which it has the power to govern financial and operational policies to obtain benefits from their operations, are fully consolidated.

The new standard for consolidation, introduced by IFRS 10 as replacement of IAS 27 (amended) - Consolidated and Separate Financial Statements and by SIC 12 Special Purpose Vehicles, is based on the following three criteria that must be met simultaneously for Maroc Telecom to assume control :

- Maroc Telecom has power over the subsidiary when it has existing rights that give it the ability to direct the relevant activities (i.e., the activities that significantly affect the investee’s returns); Power arises from existing and/or potential voting rights and/or contractual arrangements. The voting rights must be substantial (i.e., they may be employed at any time and without limitation, particularly during votes on important activities). Assessment of whether a parent has power over a subsidiary depends on the relevant activities of the subsidiary, it's decision-making procedures, and the breakdown of votes among the other shareholders.

- Maroc Telecom has exposure or rights to variable returns from its involvement with the subsidiary. These returns may vary in accordance with the subsidiary's performance. The notion of return is defined broadly and includes dividends and other forms of distributed economic benefits, the investment's valuation, cost savings, synergies, etc.
- Maroc Telecom has the ability to exercise its power to affect the returns. Any power that cannot affect returns is considered non-controlling.

The Group's consolidated financial statements are presented as those of a single economic entity with two types of owners: 1. the owners of Maroc Telecom Group (shareholders of Maroc Telecom SA), and 2. holders of non-controlling interests (minority shareholders of the subsidiaries). A non-controlling interest is defined as a stake in a subsidiary that cannot be directly or indirectly attributed to a parent company (hereinafter "non-controlling interests"). Consequently any changes in percentage of ownership of a parent company in a subsidiary that do not result in the loss of control affects only equity, because control is not changed within the economic entity.

Transaction eliminated in the consolidated financial statements

Revenues, expenses, and balance-sheet positions resulting from intra-group transactions are eliminated during the preparation of the consolidated financial statements.

3.6 Business combinations

Business combinations from January 1, 2009

The acquisition method is used to account for business combinations. Under this method, upon the initial consolidation of an entity over which the Group has acquired exclusive control:

- the identifiable assets acquired and the liabilities assumed are measured at their fair value on the acquisition date.
- the noncontrolling interests are measured either at fair value or at their proportionate share of the acquiree's identifiable net assets. This option is available on a transaction-by-transaction basis.

On the acquisition date, goodwill is measured as the difference between:

- the fair value of the consideration transferred plus the amount of noncontrolling interest in the acquiree, and, in a business combination achieved in stages, the acquisition-date fair value of the equity interest held previously by the acquirer in the acquiree;

and

- the net amount on the acquisition date for identifiable assets acquired and liabilities assumed.

The fair-value measurement of noncontrolling interests increases goodwill up to the share attributable to the noncontrolling interests, thereby resulting in the recognition of full goodwill. The purchase price and its allocation must be completed within 12 months of the acquisition date. If goodwill is negative, it is recognized as profit directly in profit or loss. After the acquisition date, goodwill is measured at its initial amount, less any recorded impairment losses;

The following principles also apply to business combinations:

- beginning on and after the acquisition date, to the extent possible, goodwill is allocated to each cash-generating unit likely to benefit from the business combination;
- any adjustment to the purchase price is recorded at fair value on the acquisition date, and any subsequent adjustment after the purchase-price allocation period is recognized in profit or loss;
- acquisition-related costs are recognized as expenses when incurred;
- in the event of acquisition of an additional interest in a consolidated subsidiary, Maroc Telecom recognizes the difference between the acquisition cost and the carrying value of noncontrolling interests as a change in equity attributable to shareholders of Maroc Telecom;

Goodwill is not amortized.

Business combinations prior to January 1, 2009

Pursuant to IFRS 1, Maroc Telecom elected not to restate business combinations that occurred before January 1, 2004. IFRS 3, as published by the IASB in March 2004, had already retained the acquisition method. Its provisions, however, differed from those of the revised standard on the following main points:

- noncontrolling interests were measured on the basis of their proportionate share in the acquired net identifiable assets; the option of fair-value measurement did not exist;
- contingent consideration was recognized in the cost of acquisition only if payment was likely to occur and the amounts could be measured reliably;
- costs attributable directly to the acquisition were recognized under the cost of the business combination.
- In the event of acquisition of an additional interest in a consolidated subsidiary, Maroc Telecom recognizes as goodwill the difference between the acquisition cost and the carrying value of acquired noncontrolling interests.

3.7 Foreign-currency translation

Foreign-currency transactions are initially recorded in the functional currency at the exchange rate prevailing on the date of the transaction. At the end of the period, monetary assets and liabilities denominated in a foreign currency are translated into the functional currency at the exchange rate prevailing on that date. All translation differences are recognized in profit or loss for the period.

3.8 Translation of financial statements for foreign activities

Assets and liabilities relating to foreign activities, including goodwill and fair-value adjustments arising from consolidation, are translated into Moroccan dirhams at the exchange rate prevailing at the end of the period.

Income and expenses are translated into dirhams at the average exchange rate over the period.

Foreign exchange differences arising from translation are recorded as foreign currency translation differences, as a separate component of shareholders' equity.

3.9 Assets

3.9.1 Other intangible assets

Intangible assets acquired separately are recorded at cost, and intangible assets acquired in connection with a business combination are recorded at their fair value at the acquisition date. Subsequent to initial recognition, the historical cost model is applied to intangible assets that are amortized when they are ready for use. Depreciation is recorded for assets with limited useful life. The useful lives are reviewed at each closing.

The estimated useful lives are between 2 and 5 years.

IAS 38 does not recognize brands, subscriber bases and market segments generated internally as intangible assets.

Licenses for the operation of telecommunications networks are recorded at historical cost and are amortized on a straight-line basis as of the effective date of the service for the period of validity of the license.

The Maroc Telecom group chose not to use the option offered by IFRS 1 to choose to measure certain intangible assets at fair value on January 1, 2004 at this date.

Expenditures posted to intangible enterprises are capitalized only if they enhance the future economic benefits associated with the asset. Other expenses are recognized as expenses when incurred.

3.9.2 Research and development costs

Research costs are expensed when incurred. Development expenses are capitalized when the project can reasonably be considered feasible.

Pursuant to IAS 38 Intangible Assets, development costs are capitalized only after the technical and financial feasibility of the asset for sale or use have been established, where it is likely that the future economic benefits attributable to the asset will flow to the company, and where the cost of the asset can be measured reliably.

3.9.3 Property, plant, and equipment

Property, plant, and equipment are carried at historical cost less any accumulated depreciation and impairment losses. Historical cost includes acquisition or production costs as well as costs directly attributable to transporting the asset to its physical location and to preparing it for use in operations. For the purposes of IAS 23, borrowing costs directly attributable to the acquisition, construction, or production of a qualifying asset are included in the cost of the asset. Other borrowing costs are recognized as an expense for the period in which they are incurred. When property, plant, and equipment include significant components with various useful lives, the components are recorded and depreciated separately.

Property assets comprising the items “land” and “buildings” are derived in part from the contribution in kind granted in 1998 by the Moroccan government (in connection with the breakup of ONPT) to Maroc Telecom when it was established.

When these assets were transferred, the property titles could not be registered with the property registry.

Fully 99.17% of such assets had been assigned property titles at the end of December 2024. Although uncertainty over the property titles remains, the risk is limited, because the Moroccan government has guaranteed Maroc Telecom use of the transferred property as at this time, and because to date there have been no significant incidents related to this situation.

The assets transferred by the Moroccan government on February 26, 1998, to establish Maroc Telecom as a public operator were recorded as a net amount in the opening statement of financial position, as approved by:

- the Postal Services and Information Technology Act no. 24-96;
- the joint order no. 341-98 of the Ministry of Telecommunications and the Ministry of Finance, Commerce, and Industry, approving the inventory of assets transferred to Maroc Telecom Group.

Depreciation is calculated using the straight-line method over the estimated useful lives of the assets. Useful lives are reviewed at the end of each reporting period and are as follows:

• Construction and buildings	20 years
• Civil engineering projects	15 years
• Network equipment:	
• Transmission (Mobile)	10 years
• Switching	8 years
• Transmission (fixed line)	10 years
• Fixtures and fittings	10 years for various facilities
	20 years for the fitting out of buildings
• Computer equipment	5 years
• Office equipment	10 years
• Transportation equipment	5 years

Assets not put into service are maintained in assets under construction.

Depreciation charges for assets acquired under these contracts are included in depreciation charges.

Maroc Telecom Group has elected not to use the option offered by IFRS 1 to measure certain items of property, plant and equipment at their fair value at January 1, 2004.

The Group recognizes, in the carrying amount of an item of property, plant and equipment, the replacement cost of a component of that item of property, plant and equipment at the time this cost is incurred if it is probable that the future economic benefits associated with the asset will flow to the Group and its cost can be reliably measured.

All routine maintenance and servicing costs are expensed as incurred.

3.9.4 Impairment of fixed assets

Goodwill and other intangible assets with an indefinite useful life are subject to an impairment test at each annual closing and whenever there is an indication that they may have lost value. The carrying amounts of other fixed assets are also tested for impairment whenever events or changes in circumstances suggest that these carrying amounts may not be recoverable. The impairment test involves comparing the net carrying amount of the asset to its recoverable amount, which is the higher of its fair value less costs to sell and its value in use.

The recoverable amount is determined for an asset individually, unless the asset does not generate cash flows that are largely independent of the cash flows from other assets or groups of assets. In such cases, as with goodwill, the recoverable amount is determined for the cash-generating unit. Maroc Telecom has defined its Fixed and Mobile business units (BUs) as its cash-generating units.

3.9.5 Accounting treatment of lease assets

The Maroc Telecom Group adopted IFRS 16 with effect from January 1, 2019. The application of this standard removes the IAS 17 distinction between operating leases and finance leases, and requires the recognition of almost all leases on the balance sheet with an asset representing the right-of-use of the leased asset for the duration of the lease term, in exchange for a liability in respect of the obligation to pay rent.

3.9.5.1 Definition of right-of-use

Maroc Telecom's right-of-use is derived from its leases. Under IFRS 16, "*a contract is, or contains, a lease if it conveys to the tenant the right to control the use of an identified asset for a period of time in exchange for consideration*". This definition provided by the standard focuses on two main points: the identification of the asset and the control of its use by the lessee.

Following the analysis of the leases of its various subsidiaries and regions, the Group has defined four main categories of right-of-use:

- Land;
- Buildings;
- Technical facilities;
- Transportation equipment.

Acquisition costs are not capitalized in accordance with the transitional provisions provided for in paragraph C10d.

3.9.5.2 Exemptions

Based on the criteria provided, the MAROC TELECOM Group has included in the scope of application of the standard all eligible contracts with the exception of:

- Contracts relating to intangible assets (licenses and software);
- Leases for which the Group is the lessor;
- Contracts meeting the low-value exemption (asset replacement value below the equivalent of $5,000) or the short-term exemption (remaining term at the transition date is less than 12 months). These exemptions are provided for by the standard and applied by the Group.

3.9.5.3 Separation of contract components

IFRS 16 includes a clause on the separation of contract components: "Where a contract is or contains a lease, the entity shall recognize each lease component of the contract as a separate lease, independent of the non-lease components of the contract, unless it applies the simplification measure set out in paragraph 15."

The MAROC TELECOM Group has opted for the simplification option by recognizing the lease components and related non-lease components as one single lease component. As mentioned in paragraph 15, the choice is made by category of underlying assets and does not apply to embedded derivatives that meet the conditions defined in paragraph 4.3.3 of IFRS 9 "Financial Instruments".

3.9.5.4 Definition of lease term

In order to quantify the IFRS 16 impacts of a contract, the MAROC TELECOM Group must define the period for which it is enforceable. The enforceable period, as defined by paragraph 18 of IFRS 16, includes the period during which the contract is non-cancellable, to which is added:

- the portion of the contractual term in which the entity has a termination option that it is reasonably certain not to exercise;
- the period for which the entity has an extension option that it is reasonably certain to exercise.

Reasonable certainty is at the discretion of the Group. The latter exercises its options in accordance with the facts and circumstances and in such a way as to preserve its economic and competitive interests.

As underlined by the IFRS IC in its decision on the economic definition of the enforceable period, as well as the CNCC (French National Institute of Statutory Auditors) and the ANC (French Accounting Standards Authority) through their analysis work, the enforceable period is not limited to the contractual terms. In reality, it is linked to the economic advantage derived by the lessee from the asset and the significant penalties that may apply in the event of termination of the contract prior to the end of the economic term. Ultimately, the enforceable period may be modified independently of the contractual terms when the reality of the economic context is more meaningful.

Documentation work has been carried out to identify and measure the impact of the decisions made on the consolidated financial statements. The results of the analyses carried out reveal no significant differences between the Group's current model for measuring the enforceable periods of contracts and the new provisions introduced by the IFRS IC.

3.9.5.5 Determining the discount rate

The discount rate is also a fundamental parameter used to accurately measure the impacts of IFRS 16. Indeed, this element is a condition imposed by the standard which stipulates: *"At the start date [of a lease], the lessee must measure the lease liability at the present value of the lease payments that have not yet been paid. The present value of lease payments should be calculated using the interest rate implicit in the lease, if that rate can be readily determined. Otherwise, the lessee must use its incremental borrowing rate."*

The Group has opted for the incremental borrowing rate: the rate of interest that a lessee would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of similar value to the right-of-use assets in a similar economic environment. It is determined by reference to currency risk, country risk, entity risk and maturity. As a result, each entity and each maturity has a different discount rate.

To ensure its reliability, the Group recommends an approach of regular direct consultation with its banking partners in order to update the Group's debt ratios by maturity and by subsidiary annually.

3.9.5.6 Measurements

When adopting IFRS 16, the Group is required to perform two measurements. A first measurement, at the effective date of the contract, called the initial measurement, and a second after the effective date of the contract called the subsequent measurement.

3.9.5.6.1 Initial measurement

The initial measurement of the liability is based on the present value of unpaid lease payments, using the discount rate.

At the effective date, the Group also measures the cost of the asset on the basis of:

- the initial measurement of the lease liability;
- the amount of rent paid on or before the effective date (after deduction of any lease incentives received).

3.9.5.6.2 Subsequent measurement

After the effective date of the contract, the standard provides for three models of subsequent measurement: the cost model, the fair value model and the revaluation model.

The MAROC TELECOM Group has chosen to apply the cost model in order to maintain consistency with the preferred models for other standards. Under the terms of this model, the right-of-use asset is measured at cost, less any accumulated depreciation and any accumulative impairment losses, and adjusted for any remeasurement of the lease liability.

The Group must depreciate the right-of-use asset in accordance with the depreciation provisions of IAS 16 "Property, plant and equipment". The depreciation period corresponds to the period between the effective date of the contract and the earlier of the end of the useful life of the underlying asset and the end of the lease term. However, if the depreciation period is longer than that of the contract, the depreciation period shall match the lease term.

Under the cost model, impairment of the right-of-use asset is determined in accordance with IAS 36 "Impairment of Assets".

3.9.5.7 Lease modifications

In the event of a lease modification, on the effective date of the modification, the MAROC TELECOM Group:

a) allocates the consideration provided for in the amended lease in accordance with the terms of the standard (paragraphs 13 to 16);

b) determines the lease term as amended in accordance with the terms of the standard (paragraphs 18 and 19);

c) remeasures the lease liability by discounting the revised lease payments using the incremental borrowing rate on the effective date of the modification.

Paragraph 44 of the standard states that a change in the scope of a lease and the consideration for the lease does not constitute a contract amendment. These two conditions together require the creation of a separate lease.

3.9.5.8 Presentation

The elements of IFRS 16 must be presented in the Group's primary financial statements. The standard suggests two ways of doing so: the first consists of highlighting the impacted items by asset category and the second requires the creation of a separate section dedicated to the IFRS 16 elements. The MAROC TELECOM Group has opted for the second presentation. On the asset side of the balance sheet, the right-of-use asset and its depreciation constitute a separate category of fixed assets. On the liability side, the lease obligation is included in the Group's financial liabilities, but a separate line is included in the notes.

3.9.5.9 Out-of-scope contracts

Contracts outside the scope of IFRS 16 are recognized as rental expenses and appear in the Group income statement.

3.9.5.10 Application to portfolios

The standard's text allows for grouping contracts with similar characteristics into a portfolio and applying the measures by portfolio if it can reasonably expect that the effects on the financial statements of applying the standard to the portfolio will not differ significantly from the effects of applying it to each individual lease contract.

The Maroc Telecom Group has chosen to maintain individual contract treatment and has not opted for portfolio treatment.

3.9.5.11 Combining contracts

According to Appendix B paragraph B2 of the standard, two or more contracts are accounted for as a single contract when:

"a) contracts are negotiated as a package and have an overall business objective that would not be understood if the contracts were not considered collectively;

b) the amount of consideration to be paid under one of the contracts depends on the price or performance of the other contract; or

c) the right-of-use of underlying assets conferred by the contracts (or some of the right-of-use of underlying assets conferred by each of the contracts) constitute a single lease component as described in paragraph B32".

If one of the aforementioned conditions is met, the Group must combine the contracts entered into at the same time or nearly the same time with the same party (or parties related to said party) and recognize them as one single contract.

3.9.5.12 Deferred taxes

As the standard is not clear as to whether or not deferred tax should be recognized on the initial recognition of a right of use and a lease liability when IFRS 16 is implemented, Maroc Telecom Group does not recognize deferred tax on contracts subject to IFRS 16 at the time of recognition.

3.9.6 Financial assets

The Group has applied the provisions of IFRS 9 to financial instruments that were not derecognized on the initial application date of 1 January 2017. All financial assets recognized within the scope of IFRS 9 have been measured at amortized cost or fair value based on the two criteria mentioned above, hereinafter the categories of financial assets identified by Maroc Telecom:

- Financial assets classified as held-to-maturity and loans and receivables are measured at amortised cost in accordance with IFRS 9 because they are held in a business model to collect contractual cash flows. These cash flows consist solely of the payment of principal and interest on the outstanding principal.
- Equity securities classified as available-for-sale have been irrevocably classified as fair value through other comprehensive income.
- Investments in treasury shares held for trading continue to be measured at fair value through net income.
- Held-for-trading financial assets continue to be measured at fair value through net income under IFRS 9 because these investments are managed as a trading portfolio and settlement is based on changes in the fair value of the underlying securities and interest.

Thus, no change in the classification of the Group's active financial instruments has been identified in accordance with the new IFRS 9 standard, which has not generated any material impact on the financial statements.

3.9.7 Inventories

Inventories are composed of :

- goods corresponding to inventory intended for sale to customers when their line is opened and consisting of Fixed-line, Mobile Internet or Multimedia terminals and their accessories, with the exception of SIM cards. These inventories are valued using the CUMP method;
- handsets delivered to distributors and not activated at the balance sheet date are recognized in inventories, while handsets not activated within nine months of delivery are recognized simultaneously in revenues and costs.
- materials and supplies corresponding to items not dedicated to the network. These inventories are valued at their average acquisition cost.

Inventories are valued at the lower of cost or net realizable value. Impairment is recognized on the basis of the prospects for the sale and condition of the inventory (whether for Mobile, Fixed-line, Internet or technical assets).

3.9.8 Trade accounts receivable and other receivables

These include trade and other receivables and are measured at fair value upon initial recognition and subsequently at amortised cost less impairment losses.

Trade receivables correspond to private and public receivables:

- Private receivables: these are receivables from domestic and international individuals, distributors, companies and operators;
- Public receivables: these are receivables from local authorities and the State;

Regarding the impairment of trade receivables, IFRS 9 refers to the procedures detailed in IAS 39. The latter stipulates that: "At the end of each reporting period, the entity must assess whether there is objective evidence of impairment of a financial asset or group of financial assets measured at amortised cost. If such evidence exists, the entity must apply paragraph 63 to determine the amount of any impairment."

The standard lists various events considered as objective indications of impairment. The Group uses some of these indications, such as default or other, to assess the need for and pace of provisioning. Maroc Telecom adopts a statistical method approach to determine impairment losses in a group of financial assets in accordance with paragraph AG92 of IAS39.

3.9.9 Cash and cash equivalents

"Cash and cash equivalents" include cash on hand, sight deposits, current accounts, and short-term, highly liquid investments with maturities of three months or less.

3.10 Assets held for sale and discontinued operations

A noncurrent asset or a group of assets and liabilities qualifies as held for sale when its carrying value may be recovered principally through its disposal and not by its continued utilization. To qualify as held for sale, the asset must be available for immediate sale and the disposal must be highly probable. Such assets and liabilities are reclassified as assets held for sale and as liabilities associated with assets held for sale, without possibility of offset. The reclassified assets are recorded at the lower of fair value (net of disposal fees) and cost less accumulated depreciation and impairment losses, and are no longer depreciated.

An operation is qualified as discontinued when the criteria for classification as an asset held for sale have been met or when Maroc Telecom has sold the operation. Discontinued operations are reported on a single line of the statement of comprehensive income for the periods reported, comprising the earnings after tax of the discontinued operations until the divestiture date and the gain or loss after tax on the sale or fair-value measurement, less costs to sell the assets and liabilities of the discontinued operations. In addition, operating, investing, and financing cash flows generated by discontinued operations are reported on the statement of cash flows.

3.10.1 Financial liabilities

Financial liabilities comprise borrowings, accounts payable, and bank overdrafts.

3.10.2 Borrowings

All borrowings are initially accounted for at fair value of the amount received, net of borrowing costs.
The allocation of borrowings to current and noncurrent liabilities is performed on the basis of contractual maturity.

3.11 Provisions

Provisions are recognized when, at the end of the reporting period, the Group has a legal, regulatory, or contractual obligation as a result of past events, when it is probable that an outflow of resources (without any expected related inflow) will be required to settle the obligation, and when the obligation can be estimated reliably. Where the effect of the time value of money is material, provisions are discounted to their present value using a pretax discount rate that reflects current market assessments of the time value of money. If no reliable estimate can be made of the amount of the obligation, no provision is recorded and a disclosure is made in the notes to the consolidated financial statements.

Restructuring provisions are recorded when the Group has approved a formal and detailed restructuring program and has either begun to implement the program or has announced the program publicly. Future operating expenses are not provisioned.

Pension commitments are estimated for the subsidiaries, taking into account actuarial assumptions. The Group applies the projected unit credit method to recognize the value of its defined benefit obligation as a liability on the balance sheet.

3.12 Deferred taxes

Deferred taxes are accounted for using the liability method, for differences existing at closing between the tax-base value of assets and liabilities and their carrying value on the balance sheet.

Deferred tax liabilities are recognized for all taxable temporary differences:

- except for temporary differences generated by the initial recognition of goodwill;

and

- for taxable temporary differences arising from investments in subsidiaries, affiliates, and joint ventures, unless the date on which the temporary difference will reverse can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carryforwards of tax losses, and unused tax credits, to the extent that it is probable that taxable income will be available or when there is a payable tax liability against which these deductible temporary differences, carryforwards of tax losses, and unused tax credits can be offset:

- except where the deferred tax asset associated with the deductible temporary difference is generated by initial recognition of an asset or liability in a transaction that is not a business combination and that at the transaction date does not impact accounting earnings, taxable income, or taxable losses;
- for deductible temporary differences arising from investments in subsidiaries, affiliates, and joint ventures, deferred tax assets are recorded to the extent that it is probable that the temporary difference will reverse

in the foreseeable future and that taxable profit will be available against which the temporary difference can be utilized.

The carrying value of deferred tax assets is reviewed at each closing date and reduced to the extent that it is no longer probable that a taxable profit will be available to allow the deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the expected tax rates for the year during which the asset will be realized or the liability settled, on the basis of tax rates (and tax regulations) enacted or substantially enacted by the closing date.

Taxes for items credited or charged directly to equity are recognized in equity, not in profit or loss.

3.13 Trade accounts payable

Trade accounts payable include trade payables and other accounts payable. These are measured initially at historical cost and subsequently at amortized cost.

3.14 Share-based compensation

Pursuant to IFRS 2, share-based compensation is recorded as a payroll cost at the value of the equity instruments granted, which are assessed using a binomial model. However, depending on whether the equity instruments granted are settled through the issuance of Maroc Telecom shares or in cash, the valuation of the expense differs:

- For equity-settled instruments, the value of the instruments granted is initially estimated and fixed at grant date, then allocated over the vesting period on the basis of features of equity-settled instruments. The obligation is recorded in equity.
- For cash-settled instruments, the value of the instruments granted is initially estimated and fixed at grant date and is then re-estimated at each reporting date; the expense is adjusted pro rata for subsequent changes in the value of the vested rights. The obligation is allocated over the vesting period on the basis of features of cash-settled instruments. The corresponding obligation is recorded as a noncurrent provision.

Pursuant to the transitional provisions of IFRS 1 for IFRS 2, Maroc Telecom elected to apply IFRS 2 retroactively, to January 1, 2004.

In 2022, 2023 and 2024 no compensation paid in shares is recognized.

3.15 Revenues

Maroc Telecom revenues arise primarily from the sale of Mobile, Fixed-line and Internet telecommunication services and from the sale of equipment:

- The sale of services of the Mobile, Fixed-line and Internet activities consists of:
  - ✓ Revenues from subscriptions to classic offers as well as the amounts of postpaid plans;
  - ✓ Revenues from outgoing national and international calls (excluding rate plans), as and when they are used;
  - ✓ Income from incoming national and international calls;
  - ✓ Revenues generated by ADSL, Fiber Optic and Mobile Internet offers;
  - ✓ Revenues generated by Mobile customers not resident in Morocco using Maroc Telecom's networks (Roamers);
  - ✓ Revenues generated by data transmission provided to the business market and to Internet service providers and other telecom operators ;
  - ✓ Revenues from the sale of advertising inserts in printed and electronic directories, which are taken into account when they are published;
  - ✓ The wholesale offers;
  - ✓ Revenues generated by Value-Added Services (VAS).

- Equipment sales include all sales of equipment (Mobile terminals, broadband equipment, connected objects and accessories).

Income from contracts with customers is recognized under revenues when the provider's obligations are met immediately or gradually. Revenues from incoming and outgoing call traffic are recognized when the service is provided. For prepaid services, revenues are recognized as calls are made. Revenues from equipment is recognized when the line is activated.

Revenues from contracts with customers is recognized if the following conditions are met:

- The parties to the contract have approved it (in writing, orally, or according to other normal business practices) and have undertaken to fulfill their respective obligations;

- The company can identify each party's rights to the goods or services to be provided;

- The company can identify the payment terms agreed for the goods or services to be provided;
- The contract has commercial substance (causes an identifiable and measurable change in the economic circumstances of the entity or associated risk);
- It is probable that the entity will receive the consideration to which it is entitled in exchange for the goods or services that it will provide to the customer.

Revenues from telephone subscriptions are recognized on a straight-line basis over the subscription contract period.

Revenues from Value-Added Services (VAS) are recognized as follows:

- Sales of services developed by Maroc Telecom are recorded gross;
- Sales of services to customers managed by Maroc Telecom on behalf of content providers (mainly premium-rate numbers) are recorded net of related expenses.
- When sales are made via a third-party distributor supplied by the Group and involve a discount on the retail price, revenues are recorded as gross revenues and commissions granted are recognized as operating expenses.

The criteria for determining whether Maroc Telecom acts as a "Principal" or as an "Agent" are analyzed according to the indicators outlined in paragraph B37 of IFRS 15, "Entity acting on its own behalf or as an agent."

When a sale combines equipment and services (bundled offering), the total price allocation is made by assigning the fair value to the equipment and the remainder to the service, in accordance with the terms of IFRS 15.

3.16 Cost of purchases

Purchases consumed mainly include purchases of Mobile and Fixed-line equipment and interconnection costs.

3.17 Other operating income and expenses

This item primarily includes distributor commissions, maintenance and repair expenses, advertising and communication costs, as well as expenses related to the voluntary departure plan.

3.18 Net financing costs

The cost of net financial debt includes interest payable on loans calculated using the effective interest rate method, as well as interest received on investments.

Investment income is recognized in the income statement when it is earned.

3.19 Tax expenses

he tax expense includes both the current tax expense and the deferred tax expense (or income). Tax is recognized in the income statement unless it is related to items that are recognized directly in equity.

4. CONTRACTUAL COMMITMENTS AND CONTINGENT ASSETS AND LIABILITIES

On an annual basis, Maroc Telecom and its subsidiaries draw up a detailed list of all contractual obligations, financial and commercial commitments and contingent obligations to which they are party or exposed. This list is regularly updated by the relevant departments and reviewed by the Group's management.

Off-balance sheet commitments to suppliers of fixed assets are measured on the basis of actual orders placed. The commitment corresponds to the difference between the orders issued and the completion of these orders.

In addition, commitments relating to real estate lease contracts are estimated on the basis of the notice period provided for in the termination clause of the contract. The Group only includes commitments that do not fall within the scope of the new IFRS16 standard.

A contingent asset or liability is a potential asset or obligation that arises from past events and whose existence will be confirmed only by the occurrence (or non-occurrence) of one or more uncertain future events not wholly within the control of the entity.

A contingent liability may also arise from a present obligation that arises from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or the amount of the obligation cannot be measured with sufficient reliability.

In accordance with IAS37, contingent assets and liabilities are not recognised but must be disclosed to briefly describe their nature.

5. SEGMENT DATA

A segment is a distinguishable component of the Group that is engaged either in providing products or services within a particular economic environment (geographical segment) or in providing related products or services (business segment) and is subject to risks and returns that are different from those of other segments.

In order to comply with the internal reporting indicators set out in IFRS 8, Maroc Telecom has chosen to present its main financial and operating indicators by geographical area, through the creation, in parallel with Morocco, of a new international segment grouping its current subsidiaries in Mauritania, Burkina Faso, Gabon, Mali, Cote d'Ivoire, Benin, Togo, Niger, Central African and Chad.

6. NET CASH POSITION

It corresponds to cash, cash equivalents and cash blocked for borrowing less borrowings.

7. EARNING PER SHARE

Earnings per share, as presented in the statement of comprehensive income, are calculated by dividing net earnings (Group share) for the period by the average number of shares outstanding over the period.

Diluted earnings per share are calculated by dividing:

- net profit of the fiscal year (Group share); and
- by the average number of shares outstanding over the period plus the average number of ordinary shares that would have been issued upon conversion of all potentially dilutive instruments that are convertible into ordinary shares.

At December 31, 2024, there were no potentially dilutive instruments.

* In September 2024, Maroc Telecom and the Malian State, as shareholders of Sotelma, signed a new shareholders' agreement defining new governance rules, which do not impact the consolidation method of Sotelma in the accounts of the Maroc Telecom group, for the year ending December 31, 2024

NOTE 3. GOODWILL

(In MAD millions)	2022	2023	2024
Mauritel	137	136	136
Onatel	1,838	1,838	1,838
Gabon Telecom	666	654	636
Sotelma	4,757	4,654	4,483
Moov Alysse* subsidiaries	1,166	1,141	1,099
Casanet	5	5	5
Moov Africa Chad	820	802	772
Total net	**9,389**	**9,230**	**8,969**

* The Moov Alysse subsidiaries are composed of the following CGUs: Moov Africa Côte d'Ivoire, Moov Africa Benin, Moov Africa Togo, Moov Africa Niger, Moov Africa Centrafrique.

As from July 1, 2009, business combinations are accounted for using the full goodwill method. Goodwill is allocated to identifiable cash-generating units (CGUs) in accordance with IAS 36.
The CGUs correspond to the legal entities acquired by the Group: Mauritel, Onatel, Gabon Telecom, Sotelma, Moov Africa Côte d'Ivoire, Moov Africa Benin, Moov Africa Togo, Moov Africa Niger, Moov Africa Centrafrique and Moov Africa Chad.

Goodwill has been calculated in accordance with the revised IFRS 3.

Goodwill is subject to impairment tests at least once a year and whenever there is an indication of impairment.

At the end of 2024, without changing the methods used each year (value in use based on the discounted cash flow method), Maroc Telecom re-examined the value of the goodwill associated with its cash-generating units (CGUs), ensuring that the recoverable amount of the CGUs or group of CGUs tested exceeded their carrying amount.

Following this review, Maroc Telecom concluded that the recoverable amount of each CGU tested exceeded its carrying amount at December 31, 2024.

As of December 31, 2024, the impairment tests did not lead the Group to recognize any impairment on the goodwill related to these CGUs.

In accordance with IAS 36, the recoverable amount of Onatel, the Group's only listed subsidiary, corresponds to its value in use, which is higher than its fair value, determined on the basis of the stock market price.

The Casanet test is based on the equity multiple method (enterprise value (EV) / EBITDA).

The key assumptions used in determining recoverable amounts are determined on the basis of the following:

- The projections of net cash flows are established based on past performance and expected developments. These projections are consistent with the budget and recent forecasts of the CGUs, which take into account financial objectives, changes in the economic and macroeconomic context, as well as regulatory and fiscal developments. They are also based on external sources such as studies published by the IMF, Dataxis, and regulatory authorities.
  After five years, cash flows are extrapolated to calculate the terminal value, which is also subject to sensitivity testing..;
- the perpetual growth rate reflects the long-term growth rate of the economy while taking into account differences in maturity between markets and operators, without exceeding the average long-term growth rate for the markets in which the group operates;
- the discount rate includes an additional premium for country risk.

At December 31, 2024, business plans and key operating assumptions have been affected by the following factors:

- Inflation, in particular rising energy and raw material prices, and the ability to preserve margins and optimize costs and investments;
- Regulatory pressure in the markets in which the Group operates;
- intense competition.

Although Maroc Telecom believes that its judgments, assumptions and estimates are appropriate, actual results may differ from these estimates depending on assumptions or different market or macroeconomic conditions.

The discount and perpetual growth rates used to determine values in use have been revised as follows:

- Discount rates have increased, mainly due to the deterioration in the risk-free rate;
- Perpetual growth rates have been maintained for main CGUs.

Below are the parameters used for the main CGUs (of which goodwill is the most significant) :

CGU	Valuation method	Discount rate in local currency	Perpetual growth rate in local currency
Onatel	DCF	10.00%	1.50%
Sotelma	DCF	11.50%	3.00%
Moov Africa Côte d’Ivoire	DCF	7.00%	3.00%
Moov Africa Tchad	DCF	14.00%	3.00%

The Moov Africa brand is subject to a specific impairment test using the same parameters as the CGUs.
Sensitivity analyses were conducted to determine the value of the parameters for which the recoverable amount of the CGUs (including significant goodwills) becomes equal to the carrying amount.

The results are presented below:

	Increase in the discount rate required for the recoverable amount to equal the carrying amount (in number of points)	Decrease in the perpetual growth rate required for the recoverable amount to equal the carrying amount (in number of points)	Decrease in terminal year cash flows required for recoverable amount to equal carrying amount (%)
Onatel	+2.0 pts	-3.0 pts	-26.9%
Sotelma	+0.7 pt	-1.0 pt	-10.3%
Cote d’Ivoire	+8.7 pts	-14.9 pts	-76.7%
Chad	+0.1 pt	-0.2 pt	-1.6%

NOTE 4. OTHER INTANGIBLE ASSETS

(in MAD million)	2022	2023	2024
Software	1,092	1,084	1,138
Telecom license	4,599	3,968	6,816
Other intangible assets	2,005	2,248	2,341
Net total	**7,696**	**7,300**	**10,295**

The “Telecom licences” item includes the following licences:

- The 2G and 3G licences of ITISSALAT AL-MAGHRIB SA, Mauritel, Moov Africa Togo , Moov Africa Niger and Moov Africa Chad;
- The global Mobile licences of Onatel, Gabon Telecom, Moov Africa Benin, Moov Africa Côte d’Ivoire and Moov Africa Central Africa;
- 4G licenses from ITISSALAT AL-MAGHRIB SA, Mauritel,Sotelma, Moov Africa Togo and Moov Africa Chad.

The "other intangible assets" item primarily includes patents, trademarks, and items related to business combinations, specifically the customer bases identified when determining the Goodwill of acquired subsidiaries.

The change in the amount of licenses is mainly explained by the renewal of Mobile licenses at SOTELMA and Moov Africa Chad.

NOTE 6. INVESTMENTS IN EQUITY AFFILIATES

No equity interest was accounted for by the equity method in 2022, 2023 et 2024.

NOTE 7. NON-CURRENT FINANCIAL ASSETS

(in MAD million)	Note	2022	2023	2024
Unconsolidated investments	7.1	120	120	129
Other financial assets		1,537	2,467	2,729
Net total		**1,656**	**2,587**	**2,858**

At December 31, 2024, other non-current financial assets mainly comprise guarantee deposits in respect of the Mobile Money business of the Onatel, Gabon Telecom, Sotelma, Moov Africa Benin, Moov Africa Togo, Moov Africa Niger and Moov Africa Chad.

At December 31, 2024, the maturities of other financial assets were as follows:

(in MAD million)	Note	2022	2023	2024
Due in less than 12 months		20	762	1,425
Due in 1 to 5 years		1,515	1,280	837
Due in more than 5 years		2	425	468
Net total		**1,537**	**2,467**	**2,729**

The deposits from the Mobile Money activity increased by 11% between 2023 and 2024.

7.1 Unconsolidated interests

NOTE 8. CHANGE IN DEFERRED TAXES

8.1 Net position

(in MAD million)	2022	2023	2024
Assets	445	527	357
Liabilities	83	77	92
Net position	**363**	**451**	**265**

8.2 Change in deferred taxes

2024

(in MAD million)	2023	Charge to profit or loss	Impact on shareholders' equity	Change in scope of consolidation	Reclassifications	Translation adjustment	2024
Assets	527	-155	-2	0	-1	-12	357
Liabilities	77	12	0	0	8	-4	92
Net position	**451**	**-167**	**-2**	**0**	**-9**	**-8**	**265**

The deferred tax asset decreased by 170 million dirhams, while the deferred tax liability increased by 15 million dirhams compared to 2023. The decrease in the net deferred tax position is explained by the reversal of the deferred tax asset related to the adjustment of the donation made as part of the contribution to the special earthquake fund in 2023.

2023

(in MAD million)	2022	Charge to profit or loss	Impact on shareholders' equity	Change in scope of consolidation	Reclassifications	Translation adjustment	2023
Assets	445	98	5	0	-10	-11	527
Liabilities	83	56	-2	0	-59	-1	77
Net position	**363**	**43**	**6**	**0**	**49**	**-10**	**451**

2022

(in MAD million)	2021	Charge to profit or loss	Impact on shareholders' equity	Change in scope of consolidation	Reclassifications	Translation adjustment	2022
Assets	508	-29	1	0	-61	26	445
Liabilities	50	69	-3	0	-39	5	83
Net position	**458**	**-98**	**4**	**0**	**-22**	**21**	**363**

Components of deferred taxes

(in MAD million)	2022	2023	2024
Impairment deductible in later period	55	0	0
Restatement (IFRS) of revenues	-2	-23	-14
Deferred losses	40	18	18
Other	270	455	261
Net position	**363**	**451**	**265**

NOTE 9. INVENTORIES

(in MAD million)	2022	2023	2024
Inventories	597	564	408
Impairment (-)	-113	-119	-85
Net total	**484**	**445**	**323**

Net inventories at 31 December 2024 consist mainly of inventories in Morocco, of which :

- 243 million dirhams of goods;
- 80 million dirhams of consumable materials and supplies.

The breakdown of inventories at the subsidiary level follows the same trend as that of Maroc Telecom.

Changes in inventories are recognised in purchases consumed.

Impairment of inventories is recognised under “Net depreciation, amortisation, impairment and provisions”.

NOTE 10. TRADE ACCOUNTS RECEIVABLE AND OTHER

(in MAD million)	2022	2023	2024
Trade receivables and related accounts	9,191	9,094	8,981
Other receivables and accruals	3,969	3,202	3,717
Net total	**13,160**	**12,296**	**12,698**

10.1 Trade receivables and related accounts

(in MAD million)	2022	2023	2024
Trade receivables	16,553	16,466	16,447
Gouvernment receivables	1,522	1,666	1,856
Depreciation of trade receivables (-)	-8,884	-9,038	-9,321
Net total	**9,191**	**9,094**	**8,981**

(in MAD million)		2022	2023	2024
Accounts receivable* (Gross)		**18,075**	**18,132**	**18,303**
	≤1year	4,870	4,918	3,456
	> 1year	11,467	11,874	12,319
Provisions for impairment of trade receivables		**-8,884**	**-9,038**	**-9,321**
	≤1year	-1,370	-1,198	-1,125
	> 1year	-7,514	-7,840	-8,197
Trade receivables (Net)		**9,191**	**9,094**	**8,981**
	≤1year	3,499	3,720	2,331
	> 1year	3,953	4,034	4,122

* Unmatured receivables are not included in the breakdown of trade receivables

Net trade receivables are down compared to 2023.

The increase in provisions for the impairment of customer receivables is more contained at 3% in 2024. It reflects coverage of the risk level in line with the impairment model applied by the Maroc Telecom Group.

10.2 Other receivables and accruals

(in MAD million)	2022	2023	2024
Trade receivables, advances, and deposits	253	138	187
Employee receivables	79	72	75
Tax receivables	1,322	1,238	1,814
Other receivables	1,859	1,287	1,180
Accruals	456	467	460
Net total	**3,969**	**3,202**	**3,717**

The "tax receivables" item mainly represents VAT and corporate income tax receivables.

In 2024, the balance of tax receivables amounts to 1,814 million dirhams, representing an increase of 46.5% compared to 2023. This increase is primarily explained by the evolution of the corporate income tax receivable due to the decline in taxable income in Morocco.

Other receivables saw a decrease of 8% compared to 2023, mainly due to the impact of the Mobile Money activity.

The fall in advances and down-payments was recorded by the international subsidiaries in particular, in line with the progress of projects.

NOTE 11. SHORT-TERM FINANCIAL ASSETS

(in MAD million)	2022	2023	2024
Term deposit > 90 days			
Escrow account	103	117	89
Marketable securities			
Other short-term financial assets			
Net total	**103**	**117**	**89**

Maroc Telecom has entrusted Rothschild Martin Maurel with the implementation of a liquidity contract on the Paris stock exchange and a price regulation contract on the Casablanca stock exchange to ensure the liquidity of Maroc Telecom shares.

NOTE 12. CASH AND CASH EQUIVALENTS

(in MAD million)	2022	2023	2024
Cash	1,682	951	1,929
Cash equivalents	190	62	50
Cash and cash equivalents	**1,872**	**1,013**	**1,979**

Cash and cash equivalents increased by 966 million dirhams. This change is consistent with the increase in borrowings and bank facilities compared to 2023 (see details below).

Change in cash and cash equivalents

(in MAD million)	2022	2023	2024
Net cash from operating activities	12,002	13,045	11,598
Net cash used in investing activities	-7,452	-8,287	-11,877
Net cash used in financing activities	-4,705	-5,024	1,292
Foreign-currency translation adjustments	1	-593	-46
Change in cash and cash equivalents	**-153**	**-859**	**966**
Cash and cash equivalents at beginning of period	2,024	1,872	1,013
Cash and cash equivalents at end of period	1,872	1,013	1,979
Change in cash and cash equivalents	**-153**	**-859**	**966**

Net cash flow from operating activities

In 2024, the net cash flow generated by the activity amounted to 11,598 million dirhams, a decrease of 11% compared to 2023. This variation is explained by the impact of the settlement of the dispute between Maroc Telecom and the operator Wana Corporate, which was largely offset by the evolution of operational activity.

On a like-for-like basis, the net cash flow generated by the activity would have been higher than that recorded in 2023.

Net cash used in investing activities

The net cash flow related to investment activities amounts to -11,877 million dirhams, an increase of 3,590 million dirhams compared to 2023, due to the Group's investment projects and license renewals.

Net cash flow from financing activities

This cash flow is mainly due to dividend payments to shareholders amounting to 4,521 million dirhams and cash outflows related to debt servicing of 2,338 million dirhams. The main cash inflows for the period are the financing debts contracted from banks, totaling 9,002 million dirhams, aimed at funding investment projects and settling the dispute between Maroc Telecom and the operator Wana Corporate.

NOTE 13. DIVIDENDS

13.1 Dividends

(in MAD million)	2022	2023	2024
Dividends paid by subsidiaries to their noncontrolling interests			
Total (a)	**933**	**917**	**827**
Dividends paid by Maroc Telecom to its shareholders			
-Kingdom of Morocco	925	424	812
-Société de Participation dans les Télécommunications (SPT)	2,227	1,020	1,957
-Other	1,050	480	922
Total (b)	**4,202**	**1,924**	**3,691**
Total dividends paid (a)+(b)	**5,134**	**2,841**	**4,518**

13.2 Dividends allocated in fiscal year 2024

Dividends distributed by Maroc Telecom and its subsidiaries to their shareholders increased by 59% compared to 2023, driven by the Maroc segment.

NOTE 14. PROVISIONS

Provisions for contingencies and losses are analyzed as follows:

(in MAD million)	2022	2023	2024
Noncurrent provisions	**585**	**612**	**684**
Provisions for life annuities	15	10	9
Provisions for termination benefits	475	515	496
Provisions for disputes with third parties	95	87	72
Other provisions	0	0	106
Current provisions	**1,209**	**1,452**	**852**
Provisions for voluntary redundancy plan	-	-	0
Provisions for employee-related expenses	-	-	0
Provisions for disputes with third parties	1,170	1,414	816
Other provisions	39	38	36
Total	**1,794**	**2,064**	**1,536**

“Non-current provisions" mainly include provisions for retirement indemnities, provisions for disputes with third parties, provisions for life annuities and non-current tax provisions.

“Current provisions" mainly include provisions for litigation with third parties and current tax provisions

2024

(in MAD million)	2023	charges	Used	change in scope of consolidation	Translation adjustment	Reversals	Reclassification	2024
Noncurrent provisions	**612**	**171**	**-56**	**-**	**-20**	**-**	**-23**	**684**
Provisions for life annuities	10	-	-	-	-	-	-1	9
Provisions for termination benefits	515	57	-40	-	-15	-	-22	496
Provisions for disputes with third parties	87	5	-16	-	-3	-	-	72
Other provisions	0	109	-	-	-3	-	-	106
Current provisions	**1,452**	**73**	**-654**	**-**	**-19**	**-**	-	**852**
Provisions for voluntary redundancy plan	-	-	-	-	-	-	-	-
Provisions for employee-related expenses	-	-	-	-	-	-	-	-
Provisions for disputes with third parties	1,414	73	-654	-	-18	-	-	816
Other provisions	38	-	-	-	-1	-	-	36
Total	**2,064**	**245**	**-710**	**-**	**-39**	**-**	**-23**	**1,536**

The decrease in provisions between 2023 and 2024 is mainly due to the reversal of the provision covering the dispute between Maroc Telecom and the operator Wana Corporate for an amount of 0.5 billion dirhams.

2023

(in MAD million)	2022	charges	Used	change in scope of consolidation	Translation adjustment	Reversals	Reclassification	2023
Noncurrent provisions	**585**	**66**	**-49**	**0**	**-25**	**0**	**34**	**612**

Other provisions	39	0	0	0	-1	0	0	38
Total	**1,794**	**805**	**-468**	**0**	**-59**	**0**	**-9**	**2,064**

2022

(in MAD million)	2021	charges	Used	change in scope of consolidation	Translation adjustment	Reversals	Reclassification	2022
Noncurrent provisions	**503**	**57**	**-50**	**0**	**35**	**0**	**39**	**585**
Provisions for life annuities	15	0	0	0	0	0	0	15
Provisions for termination benefits	403	46	-23	0	30	0	20	475
Provisions for disputes with third parties	78	12	-27	0	5	0	27	95
Other provisions	8	0	0	0	0	0	-8	0
Current provisions	**1,332**	**307**	**-480**	**0**	**58**	**0**	**-8**	**1,209**
Provisions for voluntary redundancy plan	0	0	0	0	0	0	0	0
Provisions for employee-related expenses	0	0	0	0	0	0	0	0
Provisions for disputes with third parties	1295	307	-480	0	55	0	-8	1170
Other provisions	36	0	0	0	2	0	0	39
Total	**1,835**	**364**	**-530**	**0**	**93**	**0**	**31**	**1,794**

NOTE 15. BORROWINGS AND OTHER FINANCIAL LIABILITIES

15.1. Net cash position

(in MAD million)	2022	2023	2024
Bank loans due in more than one year	3,268	2,990	4,435
Lease obligation at more than 1 year	1,057	1,189	1,194
Bank loans due in less than one year	2,061	2,690	2,950
Lease obligation at less than 1 year	411	437	509
Bank overdrafts	11,448	10,101	15,353
Borrowing and other financial liabilities	**18,245**	**17,408**	**24,442**
Cash and cash equivalents	1,872	1,013	1,979
Cash held in escrow for repayment of bank loans	18	27	26
Net cash position	**-16,355**	**-16,368**	**-22,436**

(in MAD million)	2022	2023	2024
Outstanding debt and accrued interest (a)	18,245	17,408	24,442
Cash assets (b)	1,890	1,040	2,005
Net cash position (b)-(a)	**-16,355**	**-16,368**	**-22,436**

The Group's financial debt increased by 40%, with this variation explained by the financing of the renewal of operating licenses for the Mobile activity at the subsidiaries Sotelma and Tchad, as well as the financing of the settlement of the dispute between Maroc Telecom and the operator Wana Corporate.

15.2. Net cash by maturity

The breakdown by maturity is based on the repayment terms and conditions of the borrowings :

2024

(in MAD million)	< 1 year	1 to 5 years	> 5 years	Total
Bank loans	2,950	4,090	345	7,385
Lease obligation	509	856	339	1,703
Bank overdrafts	15,353	0	0	15,353
Borrowing and other financial liabilities	**18,812**	**4,946**	**684**	**24,442**
Cash and cash equivalents	1,979			1,979
Cash held in escrow for repayment of bank loans	26			26
Net cash position	**-16,807**	**-4,946**	**-684**	**-22,436**

2023

(in MAD million)	< 1 year	1 to 5 years	> 5 years	Total
Bank loans	2,690	2,794	197	5,680
Lease obligation	437	905	284	1,626
Bank overdrafts	10,101			10,101
Borrowing and other financial liabilities	**13,228**	**3,698**	**481**	**17,408**
Cash and cash equivalents	1,013			1,013
Cash held in escrow for repayment of bank loans	27			27
Net cash position	**-12,188**	**-3,698**	**-481**	**-16,368**

2022

(in MAD million)	< 1 year	1 to 5 years	> 5 years	Total
Bank loans	2,061	2,742	526	5,329
Lease obligation	411	813	244	1,468
Bank overdrafts	11,448			11,448
Borrowing and other financial liabilities	**13,920**	**3,555**	**770**	**18,245**
Cash and cash equivalents	1,872			1,872
Cash held in escrow for repayment of bank loans	18			18
Net cash position	**-12,030**	**-3,555**	**-770**	**-16,355**

15.3 Statement of analysis

NOTE 16. TRADE ACCOUNTS PAYABLE

(in MAD million)	2022	2023	2024
Trade payables and related accounts	14,660	13,270	12,354
Accruals	2,894	2,481	2,604
Other payables	8,674	8,459	9,876
Total	**26,228**	**24,210**	**24,835**

Trade payables include, among other items, payables on fixed asset purchases and trade payables - advances and deposits received on orders in progress.

In 2024, operating debts remained at a stable level. The "other operating debts" item mainly consists of tax liabilities (excluding corporate income tax) amounting to 5,771 million dirhams..

NOTE 17. REVENUES

(in MAD million)		2022	2023	2024
Morocco		19,546	19,543	19,143
	Including Mobile Services	11,296	11,006	*10,477*
International		17,242	18,381	18,706
	Including Mobile Services	15,938	16,971	*17,084*
Elimination of transactions between the parent company and subsidiaries		-1,057	-1,138	-1,149
Total consolidated revenues		**35,731**	**36,786**	**36,699**

At the end of December 2024, the Maroc Telecom Group achieved consolidated revenue of 36,699 million dirhams, slightly down compared to 2023.

At constant exchange rates, revenue increased by 1.2% compared to 2023.

NOTE 18. COST OF SALES

(in MAD million)	2022	2023	2024
Cost of handsets	438	552	591
Domestic and international interconnection charges	2,717	2,578	2,274
Other cost of sales	1,785	1,976	2,038
Total	**4,940**	**5,106**	**4,903**

The purchase costs of the terminals concern mainly the part of Morocco.

Domestic and international interconnection charges were down, due to lower call terminations in the International segment.

The item “Other purchases consumed” refers to energy purchases (fuel and electricity) and pop ups cards.

NOTE 19. PAYROLL COSTS

(in MAD million)	2022	2023	2024
Wages	2,605	2,605	2,460
Payroll taxes	489	519	498
Wages and taxes	**3,093**	**3,124**	**2,957**
Payroll costs	**3,093**	**3,124**	**2,957**
Average headcount (in number of employees)	**9,610**	**9,212**	**8,758**

This item includes payroll costs (salaries, social security charges and training costs) for the year.

In 2024, the decrease in personnel expenses is explained by xplained by the reduction in staff numbers.

NOTE 20. TAXES, DUTIES, AND FEES

(in MAD million)	2022	2023	2024
Taxes and duties	1,078	1,108	1,144
Fees	2,457	2,512	2,472
Total	**3,535**	**3,620**	**3,616**

Royalties include amounts owed to telecommunications market regulatory authorities in Morocco and internationally.

The overall level of taxes, duties, and royalties remains stable between the 2023 and 2024 financial years.

NOTE 21. OTHER OPERATING INCOME AND EXPENSES

(in MAD million)	2022	2023	2024
Communication	757	747	890
Commissions	1,975	2,040	2,038
Other including:	**5,299**	**2,852**	**9,361**
Rental expenses	426	492	574
Maintenance, repair, and property-service charges	1,183	1,143	1,297
Fees	1,011	836	966
Postage and banking service	127	154	131
Voluntary redundancy plan	2	0	0
Other	2,549	228	6,393
Total	**8,031**	**5,639**	**12,288**

In 2024, other operating income and expenses recorded a significant increase, primarily in the "Miscellaneous" item, which includes the impact of the dispute between Maroc Telecom and the operator Wana Corporate, amounting to 6.4 billion dirhams.

NOTE 22. DEPRECIATION, IMPAIRMENT AND PROVISIONS

The following table sets out changes in this item for the fiscal years ended December 31, 2022, 2023, and 2024:

(in MAD million)	2022	2023	2024
Depreciation and impairment of fixed assets	7,025	7,113	7,148
Net provisions and impairment	120	578	-276
Total	**7,145**	**7,691**	**6,873**

Net provisions for amortization, depreciation, and provisions amounted to 6,873 million dirhams at the end of 2024, compared to 7,691 million dirhams at the end of December 2023. The net provisions for depreciation and provisions include the impact of the reversal of the provision covering the risk related to the dispute between IAM and the operator Wana Corporate, amounting to 0.5 billion dirhams (see Note 14 and Note 31.3).

Depreciation and impairment of fixed assets

The table below shows the depreciation, amortisation and impairment charges on fixed assets of the Maroc Telecom Group for the years ended 31 December 2022, 2023 and 2024.

(in MAD million)	2022	2023	2024
Other intangible assets	1,233	1,260	1,322
Building and civil engineering	289	284	278
Technical plant and pylons	4,779	4,813	4,781
Other property, plant, and equipment	245	239	240
Right to use assets	479	518	528
Total	**7,025**	**7,113**	**7,148**

Net charges to provisions and impairment

The following table sets out the net charges to provisions and impairment of Maroc Telecom Group for the fiscal years ended December 31, 2022, 2023, and 2024:

(in MAD million)	2022	2023	2024
Impairment of trade receivables	353	260	361
Impairment of inventories	-40	8	-33
Impairment of other receivables	0	3	4
Provisions	-192	307	-607
Net charges and reversals	**120**	**578**	**-276**

NOTE 23. INCOME FROM EQUITY AFFILIATES

No equity interest was accounted for by the equity method in 2022, 2023, or 2024.

NOTE 24. NET FINANCIAL INCOME OR EXPENSE

24.1 Borrowing costs

(in MAD million)	2022	2023	2024
Income from cash and cash equivalents	18	42	59
Interest expense on loans	-635	-804	-976
Interest expense on rental obligation	-71	-88	-98
Net borrowing costs	**-688**	**-850**	**-1,015**

The net borrowing cost includes interest expenses on loans, reduced by income from cash and cash equivalents (investment income).

Interest expenses on loans increased by 21%, primarily due to the higher level of debt.

24.2 Other financial income and expense

(in MAD million)	2022	2023	2024
Foreign-exchange gains and losses	-34	-84	-86
Other financial income (+)	10	110	27
Other financial expenses (-)	-30	-35	-36
Other financial income and expenses	**-55**	**-9**	**-96**

Other financial income consists mainly of interest income on loans and income from non-consolidated investments.

NOTE 25. TAX EXPENSE

All subsidiaries within the Group are subject to corporate income tax in accordance with the provisions of the general tax code.

Income tax includes current tax and deferred tax.

The following table shows Maroc Telecom Group's payable and deferred taxes for the years ended December 31, 2022, 2023, and 2024:

(in MAD million)	2022	2023	2024
Income tax expense	4,507	3,881	2,015
Deferred tax	98	-43	167
Provisions for tax	0	0	109
Current tax	**4,604**	**3,838**	**2,291**
Consolidated effective tax rate	**55%**	**38%**	**46%**

Despite the decrease in current tax between 2024 and 2023, the effective tax rate increased by 8 pts. This is explained by:

- The reversal of the deferred tax asset, which increased the tax level by +4 pts ;
- The coverage of tax risks, increasing the effective tax by 2 pts ;
- The re-integration of certain non-deductible expenses, increasing the effective tax by 2 pts.

(in MAD million)	2022	2023	2024
Net earnings	3,639	6,161	2,660
Income tax expense	4,604	3,838	2,181
Provision for tax	0	0	109
Pretax earnings	**8,244**	**9,999**	**4,950**
Moroccan statutory tax rate	31%	32%	33%
Theoretical income tax expense	2,556	3,200	1,634
Impact of changes in tax rate	-70	-151	-169
Other differences	2,119	789	827
Effective income tax expense	4,604	3,838	2,291

Other differences remained virtually stable between 2023 and 2024.

The deferred tax rates of the Group are as follows:

Entity	The deffered tax rate
Maroc Telecom	34.0%
Casanet	25.5%
Mauritel	25.0%
Onatel	27.5%
Gabon Telecom	30.0%
Sotelma	30.0%
Moov Africa Côte d'Ivoire	30.0%
Moov Africa Bénin	30.0%
Moov Africa Togo	27.0%
Moov Africa Niger	30.0%
Moov Africa Centrafrique	30.0%
Moov Africa Tchad	30.0%

NOTE 26. NONCONTROLLING INTERESTS

(in MAD million)	2022	2023	2024
Total noncontrolling interests	**889**	**878**	**859**

Minority interests reflect the rights of shareholders other than Maroc Telecom to the earnings of CMC, Onatel, Gabon Telecom, Sotelma, Moov Africa CDI and Moov Africa Togo.

NOTE 27. EARNINGS PER SHARE

27.1 Earnings per share

(in MAD million)	2022		2023		2024	
	Basic	Diluted	Basic	Diluted	Basic	Diluted
Net earnings, Group share	2,750	2,750	5,283	5,283	1,801	1,801
Adjusted net earnings, Group share	2,750	2,750	5,283	5,283	1,801	1,801
Number of shares (millions)	879	879	879	879	879	879
Earnings per share (in MAD)	3.13	3.13	6.01	6.01	2.05	2.05

27.2 Change in the number of shares

(In share number)	2022	2023	2024
Weighted average number of shares outstanding for the period	879,095,340	879,095,340	879,095,340
Adjusted weighted average number of shares outstanding for the period	879,095,340	879,095,340	879,095,340
Potential dilutive effect of financial instruments outstanding			
Number of shares including potential dilutive effect	879 095 340	879,095,340	879,095,340

NOTE 29. RESTRUCTURING PROVISIONS

In 2022, 2023 and 2024, no provision for restructuring was recorded at group level.

NOTE 30. RELATED-PARTY TRANSACTIONS

30.1. Compensation of corporate officers, senior managers, and directors in 2022, 2023, and 2024

(in MAD million)	2022	2023	2024
Short-term benefits (1)	104	60	97
Termination benefits (2)	123	53	117
Total	**227**	**113**	**214**

(1) Salaries, remuneration, profit-sharing and bonuses paid and social security contributions, holiday pay and non-monetary benefits recorded

(2) Redundancy payments

30.2. Equity affiliates

In 2022, 2023 and 2024 no company is consolidated by the equity method.

30.3. Other related parties

In 2024, Maroc Telecom carried out transactions primarily with Emirates Telecommunications Corporation, EDCH, Etihad Etisalat Company (Mobily), and other sister companies as part of its strategic cooperation with the Etisalat Group. These various transactions can be summarized as follows:

2024

(in MAD million)	Etisalat	EDCH	Mobily	Others
Revenues	192	29	20	7
Expenses	56	4	10	11
Receivables	65	65	5	4
Payables	13	26	3	2

2023

(in MAD million)	Etisalat	EDCH	Mobily	Others
Revenues	221	29	21	0
Expenses	75	7	20	1
Receivables	46	111	17	3
Payables	18	78	19	2

2022

(in MAD million)	Etisalat	EDCH	Mobily	Others
Revenues	210	33	27	1
Expenses	56	7	4	0
Receivables	55	109	2	2
Payables	11	75	1	2

NOTE 31. CONTRACTUAL COMMITMENTS AND CONTINGENT ASSETS AND LIABILITIES

31.1. Contractual obligations and commercial commitments recorded in the balance sheet

(in MAD million)	Total	Less than 12 months	1-5 years	>5 years
Long-term debt	**5,630**		4,946	684
Capital lease obligations	**56**	56		
Total	**5,686**	**56**	**4,946**	**684**

31.2. Other commitments given and received as part of the current activity

Commitments given

The commitments given include:

(in MAD million)	2022	2023	2024
Commitment given	**2,728**	**3,503**	**10,864**
Investment commitment	1,905	2,265	9829
Outgoing commitments ans signature with banks	655	1,013	730
operating and financinn lease commitments	48	43	56
Sattellite rental commitments	89	151	219
Other commitments	***30***	***30***	***29***
Network maintenance contracts with Ericsson	*29*	*28*	*27*
Commitments on operating exprenses	*2*	*2*	*2*
Other commitments	***0***	***0***	***0***
Recovery of guarantees given by Etisalat on the financing of the Atlantic Subsidiaries	*0*	*0*	*0*
Forward sale commitment	*0*	*0*	*0*

The commitments given have increased compared to 2023 due to the rise in investments made by the Group in 2024, notably the signing of the investment agreement between Maroc Telecom and the Moroccan State.

Guarantees and letters of credit with banks have decreased, primarily at the international level, due to payments made on letters of credit related to investment projects.

Commitments received

The commitments received include:

(in MAD million)	2022	2023	2024
Commitments received	**1,541**	**1,580**	**1,485**
Guarantees and endorsements	1,541	1,580	1,478
Other commitments received	0	0	7
Forward purchase commitment	0	0	0
Commitment of the Moroccan State to contribute the assets of social works	0	0	0
***Investment agreement**: exemption from customs duties on imports related to investments*	0	0	0

The commitments received are primarily related to guarantee bonds received from network equipment suppliers as part of Capex contracts and orders internationally.

31.3. Contingent assets and liabilities

Itissalat Al-Maghrib received a summons from the Rabat Commercial Court on December 16, 2021, regarding a complaint filed by Wana Corporate concerning unbundling, for an amount of 6.85 million dirhams. On January 29, 2024, a non-enforceable ruling was issued by the Commercial Court, setting the compensation for damages related to anti-competitive practices at 6.37 million dirhams.

Itissalat Al-Maghrib S.A had set aside a provision in its accounts as of December 31, 2023, amounting to 0.5 billion dirhams, representing its best estimate of the potential risk at that date.

On July 3, 2024, the Commercial Court of Appeal rendered its judgment, confirming the amount of damages to be paid by Itissalat Al-Maghrib S.A. at 6.4 billion dirhams, which was fully recognized in the 2024 accounts.

Itissalat Al-Maghrib has filed an appeal before the Court of Cassation to assert its rights.

NOTE 32. RISK MANAGEMENT

The Group is exposed to various market risks related to its business.

Credit risk:

Maroc Telecom minimizes its credit risk by engaging only in credit transactions with commercial banks or financial institutions that have a high credit rating, and by distributing transactions among selected banks or institutions.

Furthermore, Maroc Telecom's receivables are not subject to significant credit risk concentration, given their high dilution rate.

Currency risk:

The Maroc Telecom Group is exposed to foreign exchange fluctuations, as the composition of its foreign currency inflows and outflows differs.

Maroc Telecom receives foreign currency inflows from the revenues of international operators and subsidiaries, and makes foreign currency outflows for the payment of international suppliers (notably for investments and the acquisition of terminals) and for settling interconnection costs with foreign operators. These outflows are primarily denominated in euros.

In Morocco, the portion of outflows in foreign currency denominated in euros represents 86% of total foreign currency outflows as of December 31, 2024, totaling 2,778 million dirhams, which is higher than the foreign currency inflows of approximately 2,515 million dirhams in 2024.

At the international level, the portion of foreign currency outflows denominated in US dollars represents 1.8% of total foreign currency outflows as of December 31, 2024, totaling 284 million dirhams, which is higher than the foreign currency inflows of approximately 15 million dirhams in 2024.

Additionally, the Maroc Telecom Group had a debt of 24,442 million dirhams as of December 31, 2024, compared to 17,408 million dirhams as of December 31, 2023, primarily denominated in dirhams and CFA francs.

(in MAD million)	2022	2023	2024
Euro	0	0	897
Moroccan dirham	9,654	8,050	13,356
Other (mainly CFA franc)	8,591	9,358	10,189
Current debt	**18,245**	**17,408**	**24,442**

Maroc Telecom cannot offset its foreign currency receipts and disbursements, as current Moroccan regulations only allow it to hold 80% of its foreign currency operating income in a foreign currency account; the remaining 20% is sold in Moroccan dirhams. Maroc Telecom's earnings may therefore be sensitive to variations in exchange rates, particularly between the dirham and the US dollar or the euro.

In 2024, the euro depreciated by 2.40% against the dirham, moving from 10.8509 dirhams on December 31, 2023, to 10.5903 dirhams per euro on December 31, 2024. During the same period, the US dollar appreciated by 3.76%, moving from 9.8065 dirhams on December 31, 2023, to 10.1751 dirhams per dollar on December 31, 2024.

The subsidiaries whose functional currency is the CFA franc, as well as the Mauritanian subsidiary with the Ouguiya as its currency, make the Group's exposure to foreign exchange risk more significant, particularly with respect to fluctuations in the exchange rates of the euro and Ouguiya against the dirham.

However, a 1% depreciation of the Dirham against the Euro would have the following limited impacts on the Group's 2024 accounts:

Revenues = +185 million dirhams
Operating income = +51 million dirhams

Net income, Group share = +22 million dirhams
Maroc Telecom's foreign currency assets mainly comprise receivables from subsidiaries and foreign operators. Liabilities denominated in foreign currencies mainly comprise foreign suppliers and international operators.

(in MAD million)	Euro /FCFA	USD	MRO	Total foreign currencies	MAD	Balance sheet total
Total assets	42,095	292	2,430	23	25,533	70,374
Total shareholders' equity and liabilities	-40,930	-420	-2,430	-8	-26,586	-70,374
Net position	**1,165**	**-127**	**0**	**15**	**-1,053**	**0.00**

The following table shows the Company's net foreign-currency positions in euros and US dollars, and the aggregate of other currencies, at December 31, 2024:

(in million)	Euro (2)	USD (2)	Other currencies (euro equivalent*) (1)
Assets	333	11	0
Liabilities	-88	-24	-6
Net position	245	-13	-6
Commitments (3)			
Aggregate net position	**245**	**-13**	**-6**

* based on 1 euro = 10.5394 dirhams the Bank-Al Maghrib average rate at Dec.31, 2024.

Liquidity risk:

Maroc Telecom believes that the cash flows generated by its operational activities, its cash reserves, and the funds available through credit lines will be sufficient to cover the necessary expenses and investments for its operations, debt servicing, dividend distribution, and ongoing external growth activities as of December 31, 2024.

Interest-risk:

The debt of the Maroc Telecom Group is primarily at a fixed rate. Since the proportion of variable-rate debt is relatively low, the Maroc Telecom Group is not significantly exposed to favorable or unfavorable changes in interest rates.

NOTE 33. EVENTS AFTER THE END OF THE REPORTING PERIOD

Néant.

(1) Other currencies mainly include the Japanese Yen (JPY), the Swiss Franc (CHF) and the Saudi Riyal (SAR).

(2) The foreign exchange position in euros and dollars is calculated by applying to the SDR (Special Drawing Rights) receivables and payables of foreign operators as at 31 December 2024 the proportion per currency of the receipts made in 2024.

(3) For the balance of commitments due on current contracts, the breakdown by currency corresponds to the actual balance on committed contracts

STATUTORY AUDITORS' REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31st, 2024

We have audited the accompanying consolidated financial statements of ITISSALAT Al MAGHRIB (IAM) S.A. and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at December 31st, 2024, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information. These consolidated financial statements show an amount of consolidated equity of MMAD 18 702 including a consolidated net profit of MMAD 2 660.

In our opinion, the consolidated financial statements referred to in the first paragraph above, are regular, sincere and provide in all material aspects a true and fair view of the financial position of the group comprising the persons and entities of ITISSALAT AL-MAGHRIB (IAM) S.A. at December 31st, 2024, and the financial performance and cash flows for the fiscal year then ended, in accordance with the International Financial Reporting Standards (IFRS), as adopted by the European Union.

Basis for Opinion

We conducted our audit in accordance with Moroccan auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Entity in accordance with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements in Morocco, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

We refer you to the mention inserted in note 31.3 which sets out the accounting treatment related to the litigation presented in this note. Our conclusion remains unchanged.

Key audit matters

Key audit matters are those matters, that in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters	Our response
Recognition of revenues from telecommunication activities Revenues in the consolidated financial statements at December 31, 2024 amounted to MAD 36 699 million. There is an inherent risk in the recognition of revenues, given the multitude of products, the complexity of information systems and the impact of changes in pricing models (pricing structures, incentive systems, rebates, etc.). The application of revenue recognition accounting standards involves a number of key judgments and estimates. As a result, we consider revenue from telecommunications activities as a key issue in our audit. Revenue recognition methods are detailed in note 3.15 of the consolidated financial statements.	With the assistance of our IT (Information Technology) specialists, we reviewed the key processes and controls implemented by IAM S.A., including the IT systems used for revenue recognition purposes. In particular, we have: - Gained an understanding of the general control environment, including IT, implemented by the company; - Identified and assessed the key controls implemented by the company and relevant to our audit; - Tested the operating effectiveness of the relevant controls, in particular on the application systems involved in the process of generating, evaluating and accounting revenues; - Performed analytical procedures and tested a sample of manual entries as of the end of the period.
Valuation of goodwill As part of its development, the Group has been led to carry out external growth operations and to recognize several goodwills. This goodwill, which corresponds to the difference between the price paid and the fair value (market value) of the assets and liabilities acquired, are described in note 3 to the consolidated financial statements. Each year, management ensures that the carrying amount of the goodwill attached to each cash-generating unit (CGU), shown in the balance sheet at December 31, 2024, in the amount of MAD 8 969 million, does not exceed its recoverable amount and does not present a risk of impairment. The terms of the impairment test and details of the assumptions used are described in note 3. The recoverable amount is determined by reference to the value in use calculated on the basis of the present value of the cash flows expected from the group of assets comprising it. The determination of the recoverable amount of goodwill is based on management's judgment, particularly assumptions of future income of concerned CGU and the discount rate applied to cash flow projections. We therefore considered the valuation of goodwill as a key point of the audit.	We examined the compliance of the methodology used by the Group with the applicable accounting standards. We also performed a review of the procedures related to impairement tests of goodwill and verified in particular that: the completeness of the elements making up the carrying amount of each CGUs tested and the consistency of the methods used to determine this amount with the cash flow projections used to determine value in use; the reasonableness of the cash flow projections and the reliability of the estimates by examining the main reasons for differences between forecasts and actual results; the consistency of these cash flow projections with management's latest estimates; the consistency of the growth rate used for the projected cash flows with market analyses; the calculation of the discount rate applied to the cash flows expected from each CGU; and management's sensitivity analysis of value in use to changes in the main assumptions used. Finally, we have verified that Note 3 provides appropriate disclosures.
Valuation of provisions for risks At 31 December 2024, provisions risks amounted to MAD 1 536 million. As indicated in note 3.11, as Maroc Telecom Group faces a number of disputes (commercial, social and regulatory) both in Morocco and abroad, the valuation of provisions covering these risks requires the exercise of management's judgment in its choice of elements to be considered (including the existence or no payment obligation and the reliability of the estimation). Consequently, we have considered the measurement of provisions for risks and charges to be a key point of our audit.	We have reviewed the process for assessing these provisions based on interviews with the Group's Legal Department. Our work also included: - assess the relevance of the methodology adopted by the company for the estimation of the provisions made, - obtain written confirmations and/or reports from the company's advisors related to major disputes; - assess the merits of the assumptions used and/or calculations made to determine the main adjacent provisions.

Responsibilities of Management and Those Charged With Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the Consolidated Financial Statements in accordance with IFRS as adopted by EU, and for such internal control as management determines is necessary to enable the preparation of Consolidated Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Moroccan auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with Moroccan auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Investments	2,996	3,166	**3,130**	**-1.1%**

Main items in the income and expenses account

Revenues

Maroc Telecom's revenue in 2024 amounted to MAD 18,391 million, down by 0.9% compared to 2023.

Operating income and net income

Operating income at December 31, 2024 amounted to MAD 7,268 million, down by 0.9% compared to 2023, mainly due to the decline in revenues.
Financial income fell by 7.7% to MAD 1,017 million from MAD 1,102 million in 2023. This change is mainly due to the increase in financial expenses.
Non-recurring income amounted to MAD -6,416 million compared to MAD -990 million in 2023. This change is mainly due to the impact of the judgment rendered by the Commercial Court of Rabat, which ordered Itissalat Al-Maghrib S.A. to pay a compensation equal to MAD 6.369 billion to WANA CORPORATE.
With a pre-tax income of MAD 1,869 million and corporate income tax of MAD 277 million, net income came to MAD 1,593 million, down 70.6% compared to 2023.

Blance sheet

At December 31, 2024, the balance sheet total reached MAD 39,905 million, up 3.7% versus the previous year.

Asset and their components

(Assets in MAD million)	NET			Change 2024/2023
	2022	2023	2024	
Nil-value assets	600	860	420	-51.2%
Intangible assets	1,931	1,874	2,020	7.8%
Property, plant and equipment	14,901	15,032	15,081	0.3%
Long-term investments	12,279	12,587	14,032	11.5%
Translation difference - assets	1	2	33	NS
Total net non-current assets	29,713	30,355	**31,587**	**4.1%**
Current assets	7,597	8,033	**8,048**	**0.2%**
Cash - assets	229	89	**271**	**204.9%**
Total assets	37,539	38,477	**39,905**	**3.7%**

Net fixed assets stood at MAD 31,587 million at December 31, 2024, compared with MAD 30,355 million a year earlier. They represented 79% of total assets, up 4.1% compared to 2023.

Net intangible assets amounted to MAD 2,020 million in 2024, compared with MAD 1,874 million in 2023.

Net property, plant and equipment increased by 0.3%, from MAD 15,032 million in 2023 to MAD 15,081 million in 2024.

Net financial assets amounted to MAD 14,032 million in 2024, compared with MAD 12,587 million in 2023. This change is due to the financing transactions of the subsidiaries.

Current assets amounted to MAD 8,048 million in 2024, compared with MAD 8,033 million in 2023, an increase of 0.2%.

Net cash amounted to MAD -11,885 million at December 31, 2024, compared with MAD -6,949 million at December 31, 2023.

Liabilities and their components

(Liabilities in MAD million)	NET			Change 2024/2023
	2022	2023	2024	
Shareholders' Equity	15,299	18,798	16,699	-11.2%
of which net profit for the fiscal year	2,778	5,424	1,593	-70.6%
Financing borrowings	1	15	1	-90.2%
Long Term provisions for risks and losses	12	12	43	NS
Translation difference - liabilities	1	0	0	-
Total Permanent Funds	15,314	18,825	**16,743**	**-11.1%**

STATUTORY AUDITORS' GENERAL REPORT

YEAR ENDED DECEMBER 31ST, 2024

Opinion

In accordance with the terms of our appointment by your General meetings, we have audited the accompanying financial statements of ITISSALAT AL-MAGHRIB (IAM) S.A., including the statement of financial position concerning the year ended December 31, 2024, the statement of revenues and losses, the statement of operating data, the statement of cash flows, and the additional disclosures (ETIC).These financial statements show shareholders' equity and reserves of MAD 16 699 288 thousand and net profit of MAD 1 592 703 thousand.

In our opinion, the financial statements referred to in the first paragraph above are regular, sincere and give a true and fair view of ITISSALAT ALMAGHRIB (IAM) S.A.'s assets, liabilities, and financial position at December 31st, 2024, and of its operations for the year then ended, in accordance with the accounting principles generally accepted in Morocco.

Basis for Opinion

We conducted our audit in accordance with Moroccan auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Entity in accordance with the ethical requirements that are relevant to our audit of the financial statements in Morocco, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

We refer you to the mention inserted in statement B15 which sets out the accounting treatment relating to the litigation presented in this statement. Our conclusion remains unchanged.

Key audit matters

Key audit matters are those matters, that in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters	Our response
Recognition of revenues from telecommunication activities Revenues in the financial statements at December 31, 2024 amounted to MAD 18 390 609 thousand. There is an inherent risk in the recognition of revenues, given the multitude of products and services, the complexity of information systems and the impact of changes in pricing models (pricing structures, incentive systems, discounts, etc.). The application of recognition accounting standards to telecommunications revenues is complex and involves a number of key judgments and estimates. As a result, we consider revenues from telecommunications activities as a key issue in our audit. The methods used to recognize revenue are detailed in Statement A1 of ETIC- Supplementary Information Statements (SIFS).	With the assistance of our IT (Information Technology) specialists, we reviewed the key processes and controls implemented by IAM S.A., including the IT systems used for revenue recognition purposes. In particular, we have: - Gained an understanding of the general control environment, including IT, implemented by the company; - Identified and assessed the key controls implemented by the company and relevant to our audit; - Tested the operating effectiveness of the relevant controls, in particular on the application systems involved in the process of generating, evaluating and accounting revenues; - Performed analytical procedures and tested a sample of manual entries by the end of the year.
Valuation of investments Investments in subsidiaries and affiliates, shown in the balance sheet at December 31, 2024 for a net amount of MAD 12 566 657 thousand. They are recognized at their acquisition date at cost and depreciated on the basis of their present value. As indicated in note A1-4 of the ETIC, present value is estimated by management by reference to the share of equity that the shares represent, adjusted when necessary to take into account, in particular, their perspectives of development and earnings. The estimate of the present value of these securities requires management to exercise its judgment in selecting the items to be considered depending on the equity interests concerned, which may correspond to historical data (i.e shareholders' equity) and/or forecasts (i.e profitability perspectives), as the case may be. In this context, we considered that the valuation of the equity investments was a key point of the audit.	Our work consisted mainly in reviewing the valuation process of investments and figures used. We particularly: obtained cash flow and operating forecasts for the activities of the entities concerned and assess their consistency with the forecasts resulting from the most recent strategic plans prepared by senior management; verified the consistency of the assumptions used with the economic environment at the closing and preparation dates of the financial statements; compared forecasts for previous periods with corresponding actual results in order to assess the achievement of past objectives; Verified that the shareholders' equity used is consistent with the financial statements of the entities, and that any adjustments made to this equity are based on documentary evidence.
Valuation of provisions for liabilities and charges As of December 31, 2024, provisions for risks and charges amounted to 267 203-thousand dirhams. As indicated in statement A1-9, IAM S.A. is facing a number of disputes (commercial, social and regulatory), the valuation of provisions covering these risks requires the exercise of management's judgment in its choice of elements to be considered (including the existence or absence of payment obligation and the reliability of the estimation). Consequently, we have considered the measurement of provisions for risks and charges to be a key point of our audit.	We have reviewed the process for assessing these provisions. Our work also included: - conduct interviews with the company's Legal Department to identify the main disputes and their stages of progress, - assess the relevance of the methodology adopted by the company for the estimation of the provisions made, - obtain written confirmations and/or reports from the company's advisors in related to major disputes; - assess the merits of the assumptions used and/or calculations made to determine the main adjacent provisions.

Responsibilities of Management and Those Charged With Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Moroccan accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Entity's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Moroccan auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with Moroccan auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Specific controls and information

We have also performed the specific verifications required by law. In particular, we ensured that the information contained in the Management board's report to the Shareholders was consistent with the Company's financial statements.
